Bellefonte Republican

Established in 1869.} "Let Us See To it that A Government of the People, for the People and by the People, Shall Not perish from the Earth."—A. LINCOLN. Terms: $1.50 per Year

VOL. XXV BELLEFONTE, PA., THURSDAY MORNING. MAY 31, 1894. NO 22

REPUBLICAN STATE TICKET.

FOR GOVERNOR,
DANIEL H. HASTINGS, of Centre.

FOR LIEUTENANT-GOVERNOR,
WALTER LYON, of Allegheny.

FOR AUDITOR-GENERAL,
AMOS H. MYLIN, of Lancaster.

FOR SECRETARY OF INTERNAL AFFAIRS,
JAMES W. LATTA, of Philadelphia.

FOR CONGRESSMAN-AT-LARGE,
GEORGE F. HUFF, of Westmoreland.
GALUSHA A. GROW, of Susquehanna.

Short Sketches of Republican Candidates.

GEN. D. H. HASTINGS.

The nominee for Governor, was born in Salona, Clinton county, Pa., February 26, 1849; was educated in the public schools; for several years was principal of the Bellefonte public schools; for a number of years was local editor of the Bellefonte Republican newspaper; read law with Bush & Yocum, in Bellefonte, Pa.; is a trustee of the Pennsylvania State college; has held the position of paymaster, Lieutenant Colonel and Colonel of the Fifth Regiment, National Guard of Pennsylvania; was Assistant Adjutant General to Gen. James A. Beaver, commander of Second Brigade, N. G. P., and was appointed Adjutant General of the State on the 18th day of January, 1887; was chairman of the Republican State convention of 1887, and a delegate-at-large to the National Republican convention at Chicago in 1888.

WALTER LYON.

The nominee for Lieutenant Governor, was born in Allegheny county April 27, 1853. After attending the public schools, he received some private education, studied law and was admitted to the bar in January, 1877, and has prosecuted his legal business since that time. Mr. Lyon was appointed United States District Attorney for the western district of Pennsylvania, by President Harrison, in June, 1889, serving in that office until elected State Senator, to succeed the late John N. Neeb, in 1893.

AMOS H. MYLIN.

Nominee for Auditor General, was born in West Lampeter township, Lancaster county, September 29, 1837. He was reared on a farm. He was accorded a liberal education, and finally finished his scholastic education at Andover, Mass. He afterwards attended the law department of the Univeresity of Pennsylvania, from which he graduated in 1864. In 1872 Mr. Mylin was elected to the lower branch of the legislature, and was continued in that branch for more than four years. At the expiration of his second term he was nominated for the state senate, and continuously represented Lancaster county in that body from 1879 to 1892, He served as president pro tem, in 1882, and again in 1885.

JAMES W. LATTA.

The Nominee for Secretary of Internal Affairs, was born in Philadelphia April 19, 1839, and was educated in the public schools. He then studied law, and was admitted to the bar in 1860. On the first day of September, 1862, he entered the military service of his country as first lieutenant. He was mustered out of the service on January 20, 1866, with the rank of brevet lieutenant colonel. After the war he returned to the practice of the legal profession in his native city, and at the same time took an active part in local military affairs, being for five years the commanding officer of the First regiment. General Latta was first appointed Adjutant General of the state by Governor Hartranft on June 2d, 1873, and was reappointed April, 1876, and for a third consecutive term in May, 1879.

HON. GALUSHA A. GROW,

One of the candidates for Congress-at-Large, was born in Connecticut in 1824. At an early age his parents removed to Susquehanna county, Penn'a. Arriving at manhood, he studied law and was admitted to the bar. He was elected to Congress in 1850, and served in that body for twelve years, being speaker of the House during the last term, 1861 to 1863. For thirty years thereafter Mr. Grow held no public office. In Februaay last the ex-speaker was elected to succeed the late General Lily, Congressman at Large from this state.

HON. GEORGE FRANKLIN HUFF,

The other candidate for Congress-at-Large was born at Norristown, Montgomery county, Pa., July 16, 1842. After receiving a common school education, he learned the trade of car finishing at Altoona, and subsequently entered the banking house of William M. Lloyd & Co., in Altoona. In 1867 he removed to Westmoreland county and engaged in the banking businessiat Greensburg, Mr. Huff was a member of the National Republican convention at Chicago in 1880 as one of the "Grant 306." He was elected to the Senate of Pennsylvania in November, 1884. In 1890 he was elected to the Fifty-second Congress, serving only one term.

HASTINGS' RECEPTION.

The reception tendered to General D. H. Hastings, by his neighbors and friends, last Thursday evening on his return from Harrisburg, where he had the day previous been nominated by acclamation for the highest office in the gift of the people of this commonwealth, was a most flattering tribute of the esteem in which he is held by all and his unbounded popularity at home.

The reception savored very little of political partisanship. It was attended alike by Republicans, Democrats and Prohibitionists, and there was no distinguishable difference in the warmth of the congratulations of members of either party. It was the simple, unfeigned rejoicing of friend and neighbor, over the good fortune of one of their number—an event, by the way, little less important in the lives of every citizen of Bellefonte and Centre county as in the life of General Hastings. And why shouldn't we rejoice? There is not another county in the state of Pennsylvania that can claim the honor and distinction of furnishing as many governors as has old Centre. And besides that, we should rejoice because the mantel this time has fallen on shoulders so worthy to receive it.

General Hastings has been a resident of Bellefonte ever since boyhood, almost, and in his entire life; in every act of his public or private, he has always sized up to the full measure of the manhood demanded of him. Progressive, public-spirited, exceptionally sociable, but more than all, his unusual big-heartedness, have endeared him to all those with whom he ever came in contact, and won for him that undivided esteem and popularity which he has from people at home as well as abroad.

It might not be fair to his political opponents to even assume that their presence at the reception last Thursday night was an indication of the fact that they intended to stand by him at the polls next November, yet it is but just to say that such demonstrations at all times are a precursor of what is to follow.

FOR CONGRESS, WM. C. ARNOLD.

We have been requested to announce as candidate for congress, subject to the decision of the Republican district conference, William C. Arnold, of DuBois. Mr. Arnold is well known in the state and would make a first-class candidate. The DuBois *Courier* speaks of him as follows:

"The COURIER takes no little pride this morning in announcing a candidate for congress from among the eligible material from DuBois. The candidate is Wm. C. Arnold, Esq., of whom the voters of this town, county and congressional district know a great deal. Mr. Arnold has been waiting for some time, expecting the announcement of a personal friend whom he would have gladly supported, but since that is not to be he comes out, asks for himself that which is due the county this year—the nomination. He does not do so without being prepared to make a fight worthy of his qualifications for the office. He is universally recognized as being one of the most forcible and eloquent public speakers in Western Pennsylvania, and if chosen as the party's candidate will take the stump and make the hottest fight seen in the district since General Patton's election. The party wants a candidate who is a host in himself in a campaign; one who can help himself while others are willing and doing. His nomination would give additional vigor to the campaign, and we are sincere in belief that it would have a very distinct part in popularizing and strengthening the ticket. He is a lawyer of admitted ability, is in the full vigor of mature manhood and is in many respects one of the most brilliant men of his profession that ever belonged to the Clearfield bar. One of his important qualifications is his large acquaintance with leading men in the affairs of state, another is his ability to get up and speak with great force for his clients or constituents, and McKinley himself is not more loyal to the principles of the party, including the tariff, and he is sound as a good dollar on the money market."

—The REPUBLICAN is issued one day ahead of time this week, because Wednesday being our usual publication day, was Decoration day and a legal holiday, and all the employees took a vacation in accordance with a long-established custom in country newspaper offices.

Decoration Day Excursion.

The Central R. R. of Penn'a., will sell excursion tickets from all local points to Bellefonte and return on Wednesday, May 30th, at one way fare for the round trip. The usual Decoration Day ceremonies will take place; Chaplain Chas. Stock, of Hanover, Pa., being the orator of the day.

DECLAMATION OF PRINCIPLES.

The Republican State Platform Favors Metalism and Protection.

The Republican platform adopted at the Harrisburg Convention on Wednesday reads as follows:

The Republicans of Pennsylvania in convention assembled repeat for the regulation and goverment of the national currency and following principles of finance which were announced by us at our last State Convention, and which since then have received the overwhelming approval of our fellow citizens:

"We favor the expansion of our circulating medium of the country until the sum shall amount to $40 per capita of our population, and approve the proposition to issue bank notes to the par value of the amount of bonds deposited to secure their circulation. We declare that the obligations of the government should be discharged in money approved and current in all civilized nations, to the end that a largely increased reserve of gold should be gradually accumulated and maintained.

"We declare our belief to be that no legislation can make our currency meet the needs of the American people unless it conforms to the following utterance of our last national convention:

"The American people, from tradition and interest, favor bi-metalism, and the Republican party demands the use of both gold and silver as standard money, with such restrictions and under such provisions, to be determined by legislation as will secure and maintain the part of it values of the two metals, so that the purchasing and debt-paying power of a dollar, whether of silver, gold or paper, shall be at all times equal. The interests of the producers of the country, its farmers and its workingmen, demand that every dollar, paper or coin, issued by the government shall be as good as any other."

"The threats and efforts which the Democratic party now in control of executive and legislative departments of the national government are making to destroy the system of Protection to American industries have wrecked our manufacturing establishments, destroyed the value of our farm products, ruined our employers, beggared our workingmen and brought distrust upon the honesty of their proposed legislation.

"We denounce these Democratic assaults upon the American protective system because its effect already has been to reduce to idleness two millions of workmen, and values to an amount greater than the national debt created for the suppression of the rebellion; because it enlarges the free list only on products which employ the largest number of American workmen; because it strikes with equal cruelty the farmer, the lumberman, the iron, the glass and the textile worker: because it transfers work from our own mills, mines and workshops to foreign countries; because it is sectional and aimed directly at Northern industries, and fosters the plantation system and destroys the farm; because it is vicious in its changes from specific to advalorem duties, in its reduction of the revenues of the government by many millions of dollars and its resort to war taxes and increased internal and direct taxes to make up the deficiency it needlessly creates.

"We commend and approve the efforts of our Senators and members at Congress to delay and defeat the passage of legislation hostile to any American industry, and we denounce the treatment of our workingmen by the Democratic committee of the Senate which in violation of courtesy and of all legislative tradition, denied them a hearing when they desired it in a constitutional manner to remonstrate against this destructive legislation.

"We denounce the selecting of a Southern Democrat for the Secretaryship of the Interior as a deliberate betrayal of the welfare of our soldiers and sailors and deplore the needless persecutions, suspicion and privations to which they have been subjected under that hostle administration

"We denounce the unpatriotic and un-American management of our foreign relations by the Democratic national administration, which surrenders American treaty rights and vital interests in Samoa and which has unjustifiably planned and labored to uphold and restore an odious monarchy in Hawaii and prevent the establishment there of a sister republic, in conflict with that principle of self government upon which our own republic was founded.

"We demand the enactment of such legislation as will prevent the immigration of paupers, criminals and persons incapable, either physically or mentally, of self support.

"We demand such change in our naturalization system as will deny the rights of American citizenship to Anarchists and to all other persons hostile to our government and that liberty of law upon which it is based.

"The Cleveland Administration has verified the worst apprehension of those who opposed its entrance into office. It has demonstrated its incapacity to govern both foreign and domestic affairs. It has shown its powerlessness to counsel wisely even its own party followers, so that Democratic Congressmen are adrift upon all questions where the power of public patronage does not compel them to act alike.

Immediately upon its accession to power the Democratic party betrayed the confidence the American people had reposed in it, and since it has continuously shown itself thoroughly unequal to the discharge of the high trust committed to its care that its history excites the contempt and distrust of every thoughtful citizen.

The Loaded Susquehanna.

The custom of using public streams as common carriers and storage basins for timber has its inconvenience and its dangers. The raftsmen have always been the enemy of other navigators. Their rafts are an unstable obstacle to free navigation and in spite of extreme circumspection are a frequent cause of collision and destruction. On our inland and non-navigable streams like the Susquehanna the logging in ordinary time hurts nobody, but when floods come, the escaped logs become a battering ram of tremendous power and increase tenfold the natural destructiveness of the flood water.

A river farmer writing from a point on the Susquehanna a little below Williamsport, and who is an eye witness of the devastation caused by the uncontrolled timber from the broken boom, makes a strong protest against the tolerance now given to the lumbermen on the upper Susquehanna, which costs those below them so dearly. The lumber interest of this State is a very great one and it would be folly to embarrass those engaged in it by restrictions that would appreciably increase the first cost of the product. But the principle that each should use his own so as not to harm his neighbor is as applicable to lumbermen as to others. Their practice of loosely confining enormous quantities of logs in a boom which is bound to snap and set the logs free at every extraordinary rise of waters entails periodic heavy loss upon themselves which it is to their interest to avoid if they can. Every other river interest is vitally concerned in securing protection from this periodic assult of logs which crush nearly everything in their path.

A Spring flood in the Susquehanna always finds that powerful stream loaded. The moving timber, pushed forward by the accumulated waters behind, is an almost irresistible engine of destruction. The boom itself holds back the waters for a time, adding to the overflow which makes the escaped current so full of terror. There is great force in the complaint of the river farmer. A river on the rampage is bad enough without carrying before it a solid rampart of logs.

Works of Necessity.

The decision of the general assembly of the Southern Presbyterian church that the operation of the telephone system is a necessity, and that a member of the church should not lose his standing because he is employed in a telephone office on Sunday, is a concession that was by no means to be depended on from such a body. Miss Sadie M. Means, an employe of the telephone exchange at Columbia, S. C., a member of the church, had been dismissed by her church session for working on Sunday, but the general assembly reversed the action. One of the arguments by a member of the assembly in favor of Miss Means is an obvious one, although it may not have been duly considered by all who have discussed the Sunday question. It is that the use of the telepdone lessens Sunday labor.

There is no end to the possibilities of this argument, and if accepted it may lead to many complications in considering this vexed subject. Thus, riding on street cars or other conveyances removes the labor of walking; employing a servant to prepare meals and do the general housework gives the mistress of a house an opportunity to go to church where the salaried minister preaches and saves her the labor of thinking, while the salaried choir saves her from the exertion of singing, and her husband paying his devoirs to the collection box relieves her of the work of contributing.

The fact is that common sense must settle what is or is not necessary work, and it is to be presumed that it was on this common sense basis. After all, that the Southern Presbyterian general assembly reached the conclusion that there are many cases of the utmost importance, some of them of life and death, which demand the use of the telephone on Sunday, as well as on other days of the week.

—Clearfield town will not have any decoration day services this year.

COXEY'S ARMY.

Then, too, sail on, O Ship of State!
Sail on, O Union, strong and great!
Humanity with all its fears,
With all the hopes of future years,
Is hanging breathless on thy fate!

The following which appeared in Boston daily papers of April 10th, was sent in April to every member of Congress, and is now sent to the editors of about ten thousand American newspapers and magazines who receive "*Our Dumb Animals*" each month.

To the Members of the Honorable Senate and House of Representatives of the United States of America:

COXEY'S ARMY.

I have read with interest in our daily papers of the progress of this army and of the various bodies of men who propose to join it, either at, or before its arrival at Washington, also the opinions of General McCook of our United States army, and various others upon the subject.

This army may not reach Washington with a sufficient force to endanger Congress or the United States Treasury, and these opinions of General McCook and others may be wrong. But there is no doubt that there is in this country at the present time a very large number of laboring men, willing to work, who cannot find employment, and another class who are anxious to stir up these men to anarchy and the destruction of property and life.

On the other hand there can be no question that *half a million of laboring men* could be usefully employed to-day by our National and State Governments on public improvements of great value.

100,000 men could be put to work on a Ship Canal from the Mississippi river to Chicago—another 100,000 on a Ship Canal from Lake Michigan, opposite Chicago, to Detroit—another 100,000 on enlarging the Erie to a ship canal from Buffalo to Albany, [probably by the use of electricity or otherwise, these canals might be kept open a large part of the winter]—another 100,000 on a ship canal across upper Florida from the Gulf of Mexico to the St. John's river—another large force strengthening the levees of the lower Mississippi and other Southern rivers—another in draining and irrigating vast tracts of waste lands, and so preparing them for settlement—another in constructing fortifications and breakwaters for the protection of our harbors—another in constructing and improving National and State roads, and another in fighting the Russian thistle and in various other ways too numerous to mention.

If I mistake not, a very considerable body of men might be profitably employed in Washington itself, securing better sewerage, the filling of the Patomic flats, building proper bridges across the river, and killing out the causes of malaria.

Now, I am not a Congressman, never held a political office in my life, and never want to; but I have in common with others an interest in the welfare of our country *and in promoting peace and good-will between all classes of its citizens*, and with that view would inquire whether it is not entirely within the power of Congress to authorize the immediate enlistment of one, two, three or more hundred thousand men as "Industrial Corps" of our regular army, to be employed only in useful industries, but be subject to as strict military discipline, court martial trials, etc., as the regular army; —this "Industrial Corps" to be placed under control of officers designated by Congress or the President. The enlistment to be for one, two or more years, and the men put at work as soon as possible in some of the ways above specified.

State governments may follow the example of the United States, and every unemployed man in the country, willing to work, have plenty to do.

If the question be asked, "Can we afford to give all these unemployed men employment?" I answer, "*Can we afford not to?*"

Suppose, if absolutely necessary, we postpone for a year or two the building of any more $1,000,000 war ships and $60,000 cannon, every discharge of which costs from $300 to $400.

Suppose during the next year or two we watch the costly experiment of European governments, which are much more likely to try to keep their own restless citizens quiet by setting them at fighting each other, than to meddle with us if we properly behave ourselves.

If we should go to war to-day could we not arm, equip and support 500,000 men in the field as easily as we did thirty years ago.

And would not the wheels of industry move as they did then.

And is it not *a thousand times better* and vastly cheaper to put 500,000 men at work on great internal improvements of public value than to have a war, or have them stand idle.—George T. Angell, in "*Our Dumb Animals.*"

THE soul would as soon cease to exist as to cease to love. Love like the vine withers and dies, if it has nothing to embrace.

Call for Republican County Convention.

The Republicans of Centre county will meet at their respective voting places in the several election districts in the county on Saturday, June 16th, 1894, for the purpose of electing delegates to the County Convention. The delegates chosen at that will meet in convention at the Court House in Bellefonte, on Tuesday, June 19th, 1894, at 11 o'clock a. m., for the purpose of nominating two candidates for Assembly, one candidate for office of Associate Judge, and one candidate for Jury Commissioner. The said delegates in convention assembled will also elect three judicial conferees, three congressional conferees, and three senatorial conferees, to meet with other conferees elected in the counties composing the judicial, congressional and senatorial districts respectively.

The said convention will also, at the time and place above designated, elect a Chairman of the County Committee to serve for the year 1895 and will also transact such other and further business as may properly come before the same.

Under the rules of the party the number of delegates to which each precinct is entitled is as follows:

NUMBER OF DELEGATES.			
Bellefonte, N W	6	Haines, West P	2
" S W	4	Halfmoon	3
" W W	3	Harris	2
Centre Hall	1	Howard Twp	3
Howard Boro	2	Huston	3

Be Saving of the Water.

The Water committee of the borough council desires us to request all citizens of Bellefonte to economize as much as possible in their use of water. This request is made because of the scarcity of fuel with which to run the pumps at the water works. The kind of fuel now being used—a mixture of coal, oil, coke and wood—is costing almost double what it did when coal alone could be had and used, and it is desired to run as few hours as possible. At present, there is no danger of Bellefonte going entirely dry, but in order to insure a continued supply, as little water as possible should be used. Everybody will therefore please take notice and heed the request.

NO POSTPONEMFNT.

Republican State Convention to Be Held at Harrisburg To-Day.

Harrisburg, Pa., May 22.—A majority of the delegates to the republican state convention are on the ground tonight and all fears of the convention having to be postponed until Thursday, because of railroad washouts by the storm, have been dispelled. The convention will be called to order in the opera house at 10 a. m. tomorrow, and its work promises to be sharp and decisive.

Congressman John B. Robinson, of Delaware county, president of the State League of Republican Clubs, who has been conducting such a warm contest for the nomination of lieutenant governor, announces that he is in the fight to stay, but the overwhelming strength of the forces of Walter Lyon, of Pittsburg, makes the latter's selection a certainty.

The ticket which the convention will nominate (all except Lyon by acclamation, will be: Governor, Daniel H. Hastings, of Bellefonte; lieutenant governor, Walter Lyon, of Pittsburg; auditor general, Amos Mylin, of Lancaster; secretary of internal affairs, General James W. Latta, of Philadelphia; congressional representatives at large, Galusha A. Grow, of Glenwood, and George Huff, of Greensburg.

General Hastings is the unanimous choice of the delegates and he will be nominated with a rush. His name will be presented to the convention by ex-Governor James A. Beaver, of Bellefonte, and it will be a seconded by ex-Minister to Russia Charles Emory Smith, of Philadelphia. Chris Magee, of Pittsburg, will place Walter Lyon in nomination for lieutenant governor, and close upon his heels (unless the present programme shall be changed) District Attorney W. I. Shaeffer, of Delaware county, will extoll the virtures of "Jack" Robinson for the same honor. District Attorney George S. Graham, of Philadelphia, will nominate General Latta, and the other prospective nominees will be presented to the convention by persons yet to be decided upon.

Giles D. Price, of Erie, to-day announced his withdrawal from the auditor generalship, thus leaving the field clear for Candidate Mylin; and secretary of internal affairs Thomas J. Stewart, of Montgomery, who aspired to be lieutenant governor, will follow suit tomorrow morning, if he does not do so earlier. The name of Major McDowell of Mercer, will, it is stated tonight, be presented to the convention for congressman-at-large, probably by ex-Congressman Miller, of Mercer, and almost immediately withdrawn in favor of George Huff. The Lyon supporters held a caucus in the supreme court room tonight. All of the candidates are here tonight.

The platform, which was framed late tonight, reaffirms the plank of the platform of 1893 which called for an expansion of the circulating medium to $40 per capita and also reaffirms the financial plank of the Minneapolis platform. It charges that the threats and efforts of the democratic party to destroy the protective system have wrecked our manufacturing establishments and brought distrust upon the honesty of their proposed legislation.

The democratic assaults upon our industries, embodied in the pending tariff legislation are strongly denounced and the efforts of our senators and representatives to delay and defeat such legislation is approved. The choice of a southern democrat as secretary of the interior is characterized as a deliberate betrayal of the welfare of our soldiers and sailors and the persecutions, suspicions and privation to which they have been subjected under that hostile administration are deplored.

The Cleveland administration, the platform declares, has realized the worst apprehension of those who opposed its election. It has shown incapacity to govern alike in foreign and domestic affairs; incapacity to wisely advise even its own party followers, so that democratic congressmen are adrift upon all questions where the power of public patronage does not compel them to think alike. Majorities are justly chargeable it is further contended, with all the affairs of government, but majorities which are permitted to drift in the sea of impotency deserve the contempt of all thoughtful men.

President Cleveland is denounced for his Hawaiian and Samoan policy and a more stringent system of immigration laws which would prevent criminals, paupers and persons physically or mentally incapable of supporting themselves from coming to this country is demanded. The platform recommends such changes in our naturalization system as will deny the rights of American citizenship to anarchists and all others hostile to our government and to the liberty of law which it is based.

No Need for Troops.

Harrisburg, May 24.—The Dispatch correspondent visited the Executive mansion to-night and asked Governor Pattison whether there was any probability of the troops being ordered to preserve the peace in the coke regions. He promptly answered that he had received no suggestion of any kind requesting military interference, and he supposed from the reports that the civil authorities were fully able to meet any emergency that might arise.

He highly complimented Sheriff Wilhelm, of Fayette county, on the good sense he has exhibited in the preservation of peace. If the Governor should be required to call out the militia, which does not seem probable in his opinion, no transfer of ammunition from the State Arsenal would be necessary, as each company in the National Guard has a reserve of 1,000 rounds and has been furnished with the same number for rifle practice.

Colonel O'Neill, Superintendent of the State Arsenal, has the other paraphernalia necessary in case of a call for troops in such shape as to be able to deliver it to the railroad within ten hours.

A Spouting Well.

On the old Woods property, about three miles down the railroad from this place quite an interesting phenomenon was caused by the late rains, in the shape of a veritable geyser.

Travelers over the road have noticed the buildings down in the gully perhaps 30 feet below the track and quite close to the fill. Here there is an old style well about six feet in diameter and 54 feet in depth. As the earth's internal reservoirs became full and surcharged with water from the late tremendous rains, this well became a spouting geyser from the pressure of the source that feeds the well, and from Saturday night to Monday a stream 6 feet in diameter was thrown up to a height of four feet and into Sinking creek, 8 or 10 rods distant, went this tremendous volume of water. The flow indicated two sources of supply as there was clear and muddy water, side by side. A few rods away were twin geysers each with a flow of some 8 inches and to the height of a few feet. On Tuesday evening, when in company with Dr. Atherton, we took a view of this interesting phenomenon the well was still pouring up its stream to a height of some two feet and the babies were doing their part to keep up the show.

Imagine the head and immense caverns right under us to keep up such a flow! —*Centre Reporter.*

Protect And Renew The Forests.

If we had more dense forests at the head of our streams, there would be no decrease in the rainfall, but the floods would be less sudden and less destructive. Forests do not affect the amount of the rainfall. But they do so pad the ground with fallen leaves, and so cover it with twigs and branches, that the water is caught as it falls from the clouds and retained. The forest bed acts like a sponge; it absorbs a good deal of the rainfall and gives it up slowly. Where the forests have been exterminated and the leafy covering has disappeared, the rain runs off the parched surface of the ground as rapidly as it falls. The result is sudden floods with great destruction of property and often loss of precious life.

It is not meant to assert here that a due regard to forest preservation would prevent floods; doubtless they would continue to come at irregular intervals. But it is believed that some attention to forestry would have a tendency to modify the violence of floods. This is a matter of utmost importance. The criminal neglect of the people of Pennsylvania has already wrought great harm. It is high time that they wake out of their lethargy and fall to work to preserve the remaining forests and to plant new ones.

Building Sinking.

When the old Conrad house was torn away the side wall of the Reynolds bank building was found to be in a rather unsubstantial condition. The wall being built against the stone building was out of line and the foundation was only on clay instead of resting on rock. In going down for a foundation for the new building the Reynolds foundation was left unprotected. Saturday's heavy rains completely saturated the grounds and the accompanying thunder was heavy. About 6 o'clock Friday evening the corner of the Reynolds building began to sink and the side wall bulged out about an inch. Several crevices opened in the brick work close to the roof. Some of the panes of glass in the front cracked from the pressure. Carpenters were set to work at once and heavy timbers were securely braced against the corner and thus the danger of falling out was averted. The entire night masons and helpers continued at work putting up the adjoining side wall as a protection. Had the Reynolds building been started originally on a rock foundation this would not have occurred. It is a warning to other builders.

Your Pocket Book

Should open at once when the Band boys come around to sell you a ticket to their coming concert. The boys are working hard to give Bellefonte a first-class band and they need those new uniforms badly. Just notice them on Decoration day and think how much better they would look in a neat, tasty uniform. That is what the boys want, and this concert is for that purpose; and for the ridiculously low price of 25 cents, you can help the boys and hear the best concert that has ever been given in Bellefonte.

The Purchase Made.

The County Commissioners of Clearfield county have purchased from 100 to 120 acres of the John F. Weaver farm one and one-half miles east of Clearfield for the purpose of erecting thereon the buildings of the County Home. The purchase includes such a portion of the farm as will be best adapted to the purposes intended. The price paid was $55 per acre, which certainly is a bargain and reflects credit upon the judgment of the Commissioners.

—There was a lively social housewarming at the residence of Mr. and Mrs. Toner, on Logan street, Thursday evening.

A DESPERATE BATTLE.

A Conflict Yesterday Morning Between Deputies and Strikers.

Uniontown, Pa., May 24.—A desperate and bloody battle occurred at daylight this morning between deputy sheriffs and strikers at the Stickle Hollow mines of the Washington Coal and Coke company. An effort has been made to operate the plant with non-union men. To this the strikers objected and arming themselves, this morning endeavored to prevent the workmen from entering the plant.

A number of deputies were there for such an emergency and charged on the strikers, one of the officers becoming excited and firing. This precipitated a general engagement, in which five strikers were killed and eight wounded. The strikers were armed with shotguns and rifles and wounded three deputies. Many arrests of strikers have been made. Ralney has ordered four gatling guns.

NOT A ONE-SIDED BATTLE.

Uniontown, May 24.—The fight at Stickle Hollow was not a one sided battle, as at first reported, but was fought with as many guns on one side as on the other, and with as much firing by the strikers as by the deputies. Among the wounded are three deputies, while the killed are all strikers. When the workmen came to the strikers in the public road they were asked to go home. The workmen were about to comply with the request when the deputies rushed into the midst of the men, got possession of the workmen and escorted them to the pit. In this part of the performance a deputy sheriff fired a shot, which opened up a battle in which there was volley after volley fired by each side at close range. The strikers stood their ground while their comrades were falling, but their ammunition gave out, and they were forced to give up the field and escape the fly of bullets from the Winchester rifles.

It is said that the strikers were advancing on the line of deputies when the later fired the first shot. Many who had guns in their possession were arrested by the deputies and will be brought to jail here.

The latest news from the scene of the trouble says that the strikers have all gone, and that the situation now is more peaceable. The workmen have not gone to work, but are willing to do so as soon as the excitement subsides. It has been learned that one of the men killed is named Shannon, and that he lived at Wood's Run. John Foy, of Fayette City, is among the wounded, being shot in the leg.

James McClintick.

On Saturday last, an old and respected resident of Potter twp., Mr. James McClintick, died at his home near Centre Hill, after an illness of several months. He was a native of Potter township, and always resided in it; being attached to his home and occupation, he seldom went abroad.

Mr. McClintick was a man of more than average intelligence, and fond of reading. He was an ardent and consistent Methodist; in politics he was a staunch Democrat. His wife died about ten years ago. Several children have died, those surviving are two sons, Samuel and Richard, and Lizzie, a daughter. Hig age was about 75 years.

The funeral took place on Tuesday from his late residence, Rev. Illingsworth officiating. Interment was made in the cemetery at Sprucetown.

About
Nervous Prostration
By
H. C. CHAPIN,
Editor St. Paul Pioneer Press.

"After a most thorough trial and receiving the most gratifying results, I am glad to testify in favor of

BOVININE
The Original Raw Food

"By it I was brought up with remarkable rapidity from a long siege of nervous prostration."

All Physicians Endorse It.

Bovinine is an ideal food—an unequalled nutrient, is palatable to the most delicate stomach. Alone it will sustain strength for weeks. It makes new blood. It contains the largest amount of nutrition in the smallest possible bulk.

For sale at all druggists.

THE BOVININE CO., NEW YORK.

25 CTS PISO'S CURE FOR 25 CTS
CURES WHERE ALL ELSE FAILS.
Best Cough Syrup. Tastes Good. Use in time. Sold by druggists.
CONSUMPTION

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

ULCERS, CANCERS, SCROFULA, SALT RHEUM, RHEUMATISM, BLOOD POISON.

these and every kindred disease arising from impure blood successfully treated by that never-failing and best of all tonics and medicines,

A TERRIFIC EXPLOSION,

Many Lives Endangered By An Accident At Wilkesbarre Yesterday Morning.

WILKESBARRE, Pa., May 24—The explosion of a nest of boilers at No. 5 shaft, at South Wilkesbarre this morning, and operated by the Lehigh and Wilkesbarre Coal company, caused intense excitement and it was not known until late in the afternoon that it imperiled the lives of many human beings, yet no one was injured. The boilers were eighteen in number, built in nests of four, and without warning one of the nests burst, with a terrific force, blowing the boiler house in all directions and carrying the smoke stack nearly 600 yards away, landing it on the main track of the Lehigh Valley railroad, delaying traffic for nearly an hour. The head of one of the boilers crashed through a car of coal on the track, demolishing it and throwing three other cars off the track.

A party of the New York retail coal dealers here on a tour arrived at the shaft about a half hour before the explosion and some thirty of them descended the shaft just before the accident took place. The fan stopped and the engineer could not hoist the mine carriage again, but they managed to escape by climing up the ladders a distance of some fifty feet and were landed on the surface in safety. There were no less than 300 men at work in the pit at the time the explosion took place, but they escaped through the various gangways to a place of safety and were finally all saved by means of ladders that run from the bottom to the top, while others walked out through the openings in other parts of the mine.

The cause of the explosion is not known but it is believed that the water became low in the boilers and that they exploded when cold water was forced into them. Four firemen were attending to the boilers at the time and their escape from being killed is marvelous.

Ripans Tabules are always ready.

IN paint the best is the cheapest. Don't be misled by trying what is said to be "just as good," but when you paint insist upon having a genuine brand of

Strictly Pure White Lead

It costs no more per gallon than cheap paints, and lasts many times as long.

Look out for the brands of White Lead offered you; any of the following are sure:

"Armstrong & McKelvy,"
"Beymer-Bauman,"
"Davis-Chambers,"
"Fahnestock."

FOR COLORS.—National Lead Co.'s Pure White Lead Tinting Colors.

These colors are sold in one-pound cans, each can being sufficient to tint 25 pounds of strictly Pure White Lead the desired shade; they are in no sense ready-mixed paints, but a combination of perfectly pure colors in the handiest form to tint Strictly Pure White Lead.

A good many thousand dollars have been saved property-owners by having our book on painting and color-card. Send us a postal card and get both free.

FREE TRIALS convince the skeptic and point the way which if followed leads to

VIGOROUS HEALTH FOR MEN

Prof. HARRIS' SOLUBLE MEDICATED **Pastille**

Has been put up in a proprietary form since 1878, and has been used for years prior to that time in private practice. It is no untried nostrum, of doubtful reputation, but a genuine specific for a very prevalent disease. Thousands of men, of all ages, have at some time in life brought on nervous debility and exhaustion, with organic weakness, by over brain work, excesses, too frequent indulgence or indiscretion and vicious habits, and it is to these that we offer a remedy that will, by its direct action upon the seat of the disease, stop the drain and restore the patient to vigorous health and strength.

Our method of introducing Prof. Harris' Pastille treatment is one which commends itself to all sensible persons—for the reason that we supply it upon their judgment of its value. We ask of our patrons nothing in the way of expense beyond a postal card and a two cent postage stamp. The postal card to be used in sending us their full address and the postage stamp for the letter returning the statement of their case for which we supply them with a question blank, to be filled out, and an envelope addressed to ourselves for use in returning it when filled.

FREE TRIAL PACKAGE. When we receive the statement on blank we prepare eight days' treatment and forward it by mail and prepay postage thereon—and along with the eight days' treatment we send full directions for using. The treatment in no way interferes with a person's attention to business, and causes no pain or inconvenience in any way.

We are so positive that it will give perfect satisfaction that we leave the matter of sending orders entirely with those using the free trial treatment. Having satisfied those sending for trial packages of our ability to benefit their sexual condition we feel that they are more largely interested than ourselves in continuing the use of the Pastilles. Even then we do not attempt to rob them by demanding high prices. On the contrary, we make the prices as low as possible, and the same to all. They are as follows: $3 for one month; $5 for two months; $7 for three months.

These prices secure the delivery of the Pastilles by mail. If desired by express we leave the patient to pay the charges. For over ten years we have operated our business upon this plan with satisfactory results.

We ask all persons needing treatment for any of the secret ills which come to mankind through a violation of nature's laws to send us their address on postal card or by letter and allow us to convince them that PROF. HARRIS' SOLUBLE MEDICATED PASTILLES have merit and are what they need.

All communications confidential and should be addressed to

AMONG THE MINERS.

The Notices Which Were Posted in the Clearfield District.

Philipsburg, May 23.—The following notice has been posted at nearly all the mines in the Clearfield and Beech Creek coal regions:

"We, the operators of Clearfield and associated districts, after mature consideration in meeting assembled, have decided it is impossible to pay any employes any advance over the scale of wages now in force, namely, forty cents per ton of 2,240 pounds for digging coal, and we pledge ourselves and the operations we control to act as a unit on this basis.

"Adopted at Philadelphia May 21."

Following the foregoing resolution is the accompanying notice:

"In conformity with the above resolution adopted at a meeting of Clearfield and associated bituminous coal operators, held in Philadelphia on the day named above, notice is hereby given to the miners heretofore employed in this mine that if the men are not generally returned and at work on May 28 the operators will then take such measures as they deem advisable."

Following the notice is the name of the operating company or its superintendent. The posting of the notices, while they caused some surprise to the miners, does not seem to have any other effect. The men ridicule the idea that the operators will attempt to break the strike by introducing new men. Should new men be sent in there is certain to be trouble.

Uniontown, Pa., May 23—No trouble has yet occurred at the Stickle Hollow plants of the Washington Coal and Coke company, although the situation is still alarming and an outbreak is expected at any time. The attack which has been planned for this morning was postponed to give the workmen another opportunity to come out and join the strikers.

Cumberland, Md., May 23.—The striking miners of Consolidation company held a mass meeting at Midland to-day and decided to demand an increase of ten cents per ton. A committee was appointed to confer with the operators. It is said that President Meyer will not accede to the demand and will attempt to run all the Consolidation mines with non-union men.

Latrobe, Pa. May 23.—Early this morning about 1,800 of the strikers camped near the Bradenville coal works came to Latrobe, and soon the bar rooms were all crowded. As they began to fill up with liquor they became ugly. A blacksmith from the Whitney works, who was under the influence of liquor, made a remark which aroused their ire. He was immediately seized and was being dragged from town when he was rescued by the burgess and citizens. They swore they would kill him and during the melee revolvers and knives were flashed to view. Shortly before noon Deputy Burgess Weaver closed all the bar rooms. Everything is quiet now, most of the mob having returned to camp.

Superintendent Jones, of the Latrobe Coal works, has posted bills for new miners. If they can be secured he will start up in full in a few days.

Thoughtlessness.

The world is full of people who do not stop to consider the evils of thoughtlessness. Children are apt to do and say things that are entirely beyond the bounds of reason and propriety. We can overlook them, but when older persons, who ought to use judgment regarding their speech and actions, allow themselves to indulge in language and actions unbecoming to them, there is no excuse for such thoughtlessness. God gave us brains to use and it is our duty to use them to the very best advantage.

It very often happens that boys, when given friendly advice by older persons, become angry and fly into a passion, in the heat of which they say things which they would not do, if they would only stop and think the matter over.

It only happens when they do not stop and take a second thought they see where they make a mistake, but, as the saying goes, "they are too bullheaded to acknowledge it." But it always comes back to them in after years, and then if not before they see what a sad mistake they made in early life.—The Gem.

Powderly Has Secrets.

SCRANTON, May 23.—Ex-General Master Workman Powderly gave out to the newspaper men here yesterday a portion of his remarks made before the District Assembly 16, Knights of Labor, on Monday. The most interesting portion of this was the refusal to make known the unwritten work of the order to his successors.

He said that only once or twice was he requested to impart the secret work of the order, known as the "Philosopher's Stone" and the "Junior Assembly." Now the "Philosopher's Stone" is unwritten work imparted by word of mouth to Mr. Powerly by Uriah Stevens, his predecessor in the office of general master workman. In giving it to Mr. Powderly he extorted from him under no circumstances to ever impart the secret work to anybody who was unworthy. This degree was to be given to only such as earned it by hard work. No living man but Mr. Powderly knows it, and, as it is unwritten, he says he has to obey the injunction placed upon him by Uriah Stevens, never to give it to any unworthy man.

Man's Inhumanity to Himself.

The most inhuman outrages, outrages which would disgrace the savage, man perpetrates upon his own system by swallowing drastic purgatives which convulse his stomach, agonize his intestines and weaken his system. Many people constantly do this under the impression that medicaments only which are violent in their action, and particularly cathartics, are of any avail. Irreparable injury to health is wrought under this mistaken idea. The laxative which most nearly approaches the benificent action of nature is Hostetter's Stomach Bitters, which is painless but thorough, and invigorates the intestinal canal instead of weakening and irritating it. The liver and the stomach share in the benign discipline instituted by this comprehensive medicine, whose healthful influence is felt throughout the system. Malarious rheumatic, kidney and nervous complaints succumb to it.

A Letter from Edgemont.

MR. EDITOR:—I thought to-day, as it is raining, I would scribbie you a few lines.

Edgemont is the junction of the W. M. P. & B and Cumberland Valley railroads. It is right in the heart of the peach belt, four miles from Blue Mountain and eight from Hagerstown, and five miles from the far famed Penmaen Maur. It is a beautiful valley and at this season of the year it is grand.

The quarry is a success; we are now down to very fair marble. As it lays right along the B. & C. tracks the shipping of the stone is quite convenient. The people in this section of the country are sociable and in all respects very companionable. There are a number of other manufacturing towns near here which makes the traffic over the B. & C. immense.

Yours respectfully,
GEORGE ROBB.

Why Will You

Allow your health to gradually fail? If you are closely confined indoors with little or no exercise, and desire good health, you must take care of yourself. Use Sulphur Bitters, and you will have a sound mind and a strong body.

What Can Capitalists Do to Lessen the Conflicts Between Capital and Labor?

(1.) Avoid all public displays of wealth which tend to make the poor more dissatisfied with their condition.

(2.) Spend what you can afford in public charities, and when possible, make your employees interested in your business by giving them annually a share of your net profits.

(3.) Do to the deserving poor whenever and wherever you meet them precisely what you would like to have them do to you if they were rich and you were poor.

GEO. T. ANGELL.

Some years ago we were passing, in one of our streets, a building being erected on what seemed to us a poor foundation, and we said to one of the men at work upon it that if an earthquake should come along one of these days it might tumble down half Boston. "*I wish it would*," was the reply; "*then we should have work!*"

To all these we wish to say it is of no use to cry peace, peace, when there is no peace. Our country is in peril. Let us act promptly and wisely and see to it that the poor around us, so far as we can prevent it, are saved from temptation to commit crime.

GEO. T. ANGELL.

Shot a Bald Eagle.

On Thursday afternoon a young man by the name of William Gordon shot a bald Eagle, down near the chain works, which measured six feet eight inches from tip to tip. It was a beautiful specimen of the national bird, being entirely brown in color except the legs, head and the feathers at the base of the tail, which were pure white. George R. Meek, the *Watchman* Editor, purchased the bird of young Gordon for five dollars and will send it to a taxidermist to be stuffed and prepared for good keeping. Gordon says there were two eagles, but he only succeeded in getting the one. The capture of an eagle in this locality is a very rare occurrence nowadays.

—On Wednesday a large wagon load of flour, potatoes and groceries was made up in Bellefonte for the coal miners who are in need, in the Snow Shoe district. Four men, representing the strikers, came after the provisions.

There is Something In it.

The Philipsburg *Journal* man says: "If there is one thing above another that ought to be abolished by the courts it is the publishing of the jury list after they are drawn. The publication of these lists at times gives the parties interested an opportunity to influence those with whom they chance to be acquainted, thus defeating the ends of justice. Now, if the jurors were unknown until court week this sort of thing would be done away with, and prosecutors and defendant would have an equal chance. Each and every juror receives a notice of his selection and outsiders have no right to know who the jurors are in advance of the session of court."

And yet, the publication of the jury list has always been considered a matter of news, and is depended on largely by those whose names are drawn to inform them just when to attend, as the published list is oftener more correct than some of the notices sent out.

—Oh! aren't they beauties? is the exclamation of every person who has looked at "Glimpses of America." And they are, too. It is needless to say that all who look at them take a book along. Only one coupon and ten cents in coin for part one.

Children Cry for Pitcher's Castoria.

SULPHUR BITTERS

THE GREAT German Remedy.

TRUTHS FOR THE SICK.

For those deathly Bilious Spells depend on SULPHUR BITTERS it will cure you.

$1,000 will be paid for a case where SULPHUR BITTERS will not assist or cure. It never fails.

Do you suffer with dastired and all gone feeling; if so, use SULPHUR BITTERS; it will cure you.

Cleanse the vitiated blood when you see its impurities bursting through the skin in Pimples, Blotches and Sores. Rely on SULPHUR BITTERS and health will follow.

Operatives who are closely confined in the mills and workshops; clerks, who do not procure sufficient exercise, and all who are confined in doors, should use SULPHUR BITTERS. They will not then be weak and sickly.

SULPHUR BITTERS will cure Liver Complaint. Don't be discouraged; it will cure you.

If you do not wish to suffer from Rheumatism, use a bottle of SULPHUR BITTERS; it never fails to cure.

SULPHUR BITTERS will build you up and make you strong and healthy.

Do not be without a bottle. Try it; you will not regret it.

SULPHUR BITTERS will make your blood pure, rich and strong, and your flesh hard.

Ladies in delicate health, who are all run down, should use SULPHUR BITTERS.

Try SULPHUR BITTERS to-night, and you will sleep well and feel better for it.

Do you want the best Medical Work published? Send 3 2-cent stamps to A. P. ORDWAY & CO., Boston, Mass., and receive a copy, free.

CARTER'S LITTLE LIVER PILLS.

CURE

Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

SICK

Headache, yet CARTER'S LITTLE LIVER PILLS are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEAD

Ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

ACHE

is the base of so many lives that here is where we make our great boast. Our pills cure it while others do not.

CARTER'S LITTLE LIVER PILLS are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them. In vials at 25 cents; five for $1. Sold everywhere, or sent by mail.

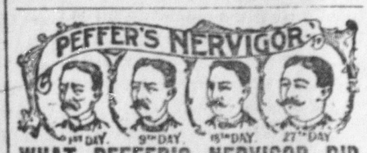
CARTER MEDICINE CO., New York.

Small Pill. Small Dose. Small Price.

DR. PEFFER'S **FEMALE PILLS.**

NEW DISCOVERY. NEVER FAILS. A new, reliable and safe relief for suppressed, excessive, scanty or painful menstration. Now used by over 50,000 ladies monthly. Invigorates these organs. Beware of imitations. Name paper. $2. per box, or trial box $1. Sent sealed in plain wrapper. Send 4c in stamps for particulars. Sold by Local Druggists. Address: PEFFER MEDICAL ASSOCIATION, Chicago, Ill.

PEFFER'S NERVIGOR



WHAT PEFFER'S NERVIGOR DID.

It acts powerfully and quickly. Cures when all others fail. Young men regain lost manhood; old men recover youthful vigor. Absolutely Guaranteed to cure Nervousness, Lost Vitality, Impotency, Nightly Emissions, Lost Power, either sex, Failing Memory, Wasting Diseases, and all effects of self abuse or excesses and indiscretion. Wards off insanity and consumption. Don't let druggists impose a worthless substitute on you because it yields a greater profit. Insist on having PEFFER'S NERVIGOR, or send for it. Can be carried in vest pocket. Prepaid, plain wrapper, $1 per box, or 6 for $5, with A Positive Written Guarantee to Cure or Refund the Money. Pamphlet free. Sold by druggists. Address PEFFER MEDICAL ASS'N, Chicago, Ill.

Sold by J. Zeller & Son, Druggists.
Bellefonte, Pa.

PICTURE FREE

A superb mammoth tintograph in 12 colors by the distinguished artist, Maud Humphrey. It is 2 feet long and 14 inches wide and will be sent free if you tell your friends. It is called "OUR VENTRESS," and shows a beautiful, dimpled darling clad in a warm, rich, fur-lined cloak, basket and umbrella in hand; she pulls the snow covered latch, while her golden hair shimmers in the sunshine, her cheeks blush with health and vigor and her roguish eyes sparkle merrily. Sure to delight you. A copy will be sent free, postpaid, if you promise to tell your friends and send 14 cents in stamps or silver for a three months' trial subscription to

Advertisers, and especially Advertising Agents, are respectfully informed that no notice will be taken of orders to insert advertisments at less rates than the above, nor will any notice be given to orders of parties unknown to the publisher, unless accompanied by the cash. EDWARD T. TUTEN.

A FIENDISH DEED.

Eleven Defenseless Men Deliberately Murdered by Strikers.

Cripple Creek, Col., May 25.—Eleven men killed, with a strong probability that the number of dead will be increased when all is known, is the record of the first day of trouble here, although real fighting has not yet begun, as the deputies are waiting reinforcement before beginning active operations. At 10 o'clock this morning eleven men started to work in the Strong mine on Battle mountain. Shortly afterwards a large party of strikers blew up the shaft house with powder, causing a loss of $25,000, and then dropped 100 pounds of giant powder down the shaft, which was also exploded, killing all the inmates. Not more than 300 yards from the Strong shaft houses sixteen men, who had engaged to go to work in the Independence mine, were surrounded in their bunk house and after a long parley agreed to surrender. Each one was armed with a rifle and a of brace revolvers. The arms are now in the possession of the strikers.

It is rumored that the strikers attacked the Anna Lee mine, overpowering the guards, when they blew up the shaft house, but the rumor has not been verified.

When the deputies are finally massed and the two forces come together a most desperate battle will be doubtless fought. The situation at 6 o'clock to-night is one of the most painful anxiety. Not a few believe the town will be a smoldering mass by another sunset if the strikers be not restrained. At Victor, six miles away, where fully 1,000 people reside, a reign of terror exists. Within a half mile of the corporation limits of the town all day long fully 300 union miners armed with rifles have paraded up and down the side of the hill. Occasionally a detour into the village would be made and people whom the miners thought to be objectionable were ordered to leave the place. The guards from Denver upon arriving at Victor went into camp on a neighboring hill. The strikers threw a picket line, entirely surrounding them, but at a distance that guarantees them safety from the deputies' rifles.

It is said the strikers have planted under their breastworks on Bull Hill a quantity of dynamite with the intention of blowing it up if it should be taken and opposed by the deputies.

One of the largest mine owners in Colorado Springs is authority for the statement that the mine owners have planted a rifle cannon on a hill commanding the breast works and that it will be used to dislodge the strikers from that position.

The capturing and disarming of deputies numbering eighteen was accomplished by women, and ever since the occurrence two of the women have been holding high court in a saloon, where the strikers shower congratulations upon them. Two wagons loaded with powder and cartridges for one of the miners were captured by the strikers and their contents confiscated.

Sam McDonald, superintendent of the strong, Anna Lee and Gold King mines, and Charley Robinson, foreman of the Strong are missing, and this gives credence to the story of slaughter.

Sawed Their Way Out.

Cleveland, May 27.—One of the boldest jail deliveries that ever occurred in this city was affected at noon yesterday at the county jail. Robert Clark, George Anderson and Charles Snow, who had just been sentenced to the penitentiary for burglary, sawed through iron window bars 1½ inches thick, and, by means of a blanket, let themselves down to the roof of the Court House annex, from whence they easily made their escape.

Snow and Anderson was sentenced yesterday to seven years in the penitentiary for robbing the Home Security Company of $10,000 worth of diamonds and jewelry.

Will Try to Start Mines.

Pittsburg, May 27.—The coal operators' ways and means committee of fifteen will meet to-morrow afternoon for organization and probably to make some plans for breaking the strike by operating mines or otherwise. The committee is divided on the points of resuming work and if such a movement is begun it is almost certain to end the committee's existence. Part of the committee are opposed to resuming work, believing that riots and bloodshed are certain to follow.

MRS. PELL'S MILLIONS.

Conditions Under Which Her Daughter May Enjoy the Income

New York, May 25.—The will of Susan M. Pell, who died at her villa, near Pau, France, on December 30, 1893, leaving $6,000,000, was filed for probate yesterday. She gives a life estate in all her property to her husband, John Augustus Pell, and at his death a life estate is given to her daughter, Eleanor Livingston Phelps, wife of Charles Harris Phelps, with remainder to the daughter's children. Mrs. Phelps has one child, a girl of 9 years.

The will was executed on January 7, 1886, at Pau. On September 2, 1887, John Augustus Pell was declared insane in the courts of this city, and Mrs. Pell was appointed committee of his person. He has an estate of $500,000, which is held by the New York Life Insurance and Trust Company as committee of his estate. On the death of Mrs. Pell, Mrs. Phelps was made committee of the person of her father. She got an order from Justice Andrews recently giving her $18,000 a year for the support of her father from his estate, which yields $30,000 a year. She has a staff of servants guarding her father. Mrs. Pell was the daughter of Moses Field, a merchant of this city, from whom she derived her large fortune. A large sum was settled upon her at her marriage to Mr. Pell on September 18, 1848.

The will of Mrs. Pell, after providing that her daughter shall get the income, on the death of her father, in quarterly payments, provides that the property shall be "free from all control of any husband she may have, but nevertheless to be subject to the conditions I hereby, for most especial reasons, impose namely:

"That during the lifetime of her present husband, Charles Harris Phelps, she shall either reside or travel in Europe or in the United States of America, unless she shall be divorced from him a vinculo matrimoni, and remain so divorced from him. A mere statement in writing from her to the effect that she has resided or traveled in Europe or in the United States of America during the three months preceding any such quarterly payment shall be sufficient authority for transmitting, paying, or in any other manner applying to her use such rents, issues, profits and incomes for such quarter."

Roll Up Your Umbrella.

"If half the citizens of the world," said a young woman who works on umbrella covers, "only know such a simple thing as how to roll up an umbrella, most of the umbrellas brought to dealers to be mended would never have needed repairs.

"The right way to roll your umbrella is to take hold of the ends of the ribs and the stick with the same hand and hold them tightly enough to prevent their being twisted while the covering is being twirled around with the other hand. Then your umbrella will be as nicely closed as when you bought it, and the only wear and tear will be on the cloth.

It is twisting the ribs out of shape around the stick and fastening them there that spoils most of the umbrellas. Never hold the umbrella by the handle alone when you roll it up and you will find it will last longer and cost less for repairs.

—An exchange publishes the following touching suggestive poetry: "How dear to our hearts is cash on subscription when generous subscribers present it to view; but the man who don't pay—we refrain from description, for perhaps gentle reader, the man may be you."

Miss Katie Rosengrant
Ulster, Penn.

Scrofula

The Worst Case the Doctors Ever Saw

Hood's Sarsaparilla Perfectly Cured

"C. I. Hood & Co., Lowell, Mass.:

"Dear Sirs:—I wish to testify to the great value of Hood's Sarsaparilla. For some time I had been troubled with scrofula, which early last winter assumed a very bad form.

Sores Appeared on My Face

and hands and gradually increased in number until they reached to my shoulder. The doctors said it was the worst case of scrofula they ever saw and also went so far as to say it was incurable. I tried ointments and other remedies but to no avail. A friend recommended Hood's

Hood's Sarsaparilla Cures

Sarsaparilla, and although I was completely discouraged, as a last chance I resolved to give it a trial. After taking one bottle I noticed the sores had commenced to heal. After the sixth bottle

They Were All Healed.

I continued to take it, however, until I had used nine bottles, and now I am perfectly well." Miss Katie Rosengrant, Ulster, Penn.

Hood's Pills are prompt and efficient, yet easy in action. Sold by all druggists. 25c.

AMONG THE MINERS.

Governor Pattison Visited Houtzdale Saturday Evening.

Philipsburgh, Pa., May 27.—The visit of Governor Pattison to the Clearfield coal region last Saturday has been the topic of conversation with the operators, miners and business men of all classes. The reasons assigned for the governor's visit are many and varied. It was very evident from his remarks before and in his speech to the miners that he had been thoroughly posted as to the situation from the operators standpoint. Before he left he was equally posted as to the situation from the miner's standpoint. What his real motive was in coming into the Houtzdale region is not definitely known. In the opinion of one of the most intelligent miners in the organization, the fact that some of the operators have posted notices declaring that they would start their works on Monday led him to believe that the scenes enacted in the coke regions would be repeated here, and by the same classes of labor. Evidence of a determination of a certain class of miners not to accept these wages, was apparent in several parts of this region several times last week.

After the conclusion of the governor's speech and remarks by several miners the meeting adopted unanimously the following resolutions:

Whereas, Robert E. Pattison, governor of this state, has come among us to effect, if possible, the adjustment of the strike; and

Whereas, We, the miners and mine laborers of Houtzdale and vicinity, are willing at any and all times, through the national officers, to meet our employers for the purpose of adjusting our grievances; and

Whereas, We believe our national officers are fully capable to the task of adjusting our difficulties; therefore, be it

Resolved, That we recommend that our local executive board at once wire the action taken at this meeting to the national officers and request them to meet and consult with Governor Pattison, and together with the governor our national officers meet the operators and try to adjust the differences now prevailing.

The governor left Houtzdale this morning for Harrisburg by special train via Tyrone. Before departing he expressed himself as being satisfied that his visit had resulted in long steps toward ending the conflict, and that he had no doubt that the operators would consent to such a conference as the miners had suggested. He was informed that so far as the miners in this section of the state were concerned, they were not averse to arbitration, feeling certain that when the conditions under which they were asked to work and the low wages that they earned were ascertained, they would be awarded the full extent of their demands.

It can be stated that there will be no attempt to resume operations in this part of the state until it is known whether or not a conference will be held and the outcome of the conference.

There was no truth in the story that a mine tipple was demolished at Woodland last Friday night.

Found Dead on a Porch.

McVeytown, May 27.—Louis Casey, a well known and well to do merchant at McVeytown station, was found dead Friday afternoon on the porch of the residence of Mr. Kurtz, in Oliver township, under the roof of which he had evidently taken shelter during a rain storm. Mr. Casey was on his way up to his farm and was found half reclining on a bench on the porch by Mr. K. on his return home. Life was extinct and the cause of death was probably apoplexy. Deceased was an Italian by birth and came to McVeytown as a refugee from the south during the war. He was poorly clad and penniless and subsequently procured work as a stone cutter for the Pennsylvania railroad in the quarries below town. His success may be guaged by the fact that he was the owner of two good farms in this valley and a store and other property in Mattawanna. His wife died about two months ago. Mr. C. and his wife spent last summer in Italy and France, returning home in October.

Major Blaine's Widow.

Chicago, May 27.—Alice F. Blaine, of Helena, Mont., died in this city after an illness of one week. She was the widow of Major John E. Blaine, a brother of James G. Blaine, the daughter of James Lonergan Fenton, of Pittsburg, and the niece of John and Thomas Lonergan, old settlers of Chicago, recently deceased.

Mrs. Blaine married Major Blaine in Pittsburg in 1863. They lived in Kansas when Major Blaine was appointed Surveyor General of Montana, and they removed to Montana. Mrs. Blaine had a charming personality and a host of friends both in the East and West. She leaves three children, James F. Blaine, of Minneapolis, and M. Louise and Elenore Blanche, who lived with her Major Blaine died at Hot Springs, Ark., in 1866. He held the position of Paymaster in the United States Army at the time of his decease.

The Indiana Miners.

Terre Haute, Ind., May 27.—The striking coal miners are still determined that no coal shall be shipped through this district. To-day all trains on the Evansville and Terre Haute railroad were held up at Shelburne, south of here, and examined by the miners. If no coal was found, the trains were allowed to proceed, but when coal was found the cars were side tracked.

Coal in the city is selling at $3.50 a ton retail and many of the industries have closed down. The Electric Light company and Street Railway company are burning oil.

A Ten Dollar Gold Piece for a Cent.

Sometime ago, a gentleman bet that if he stood at the corner of Broadway and Fourteenth Street, New York, and offered gold Eagles to the passers-by for a cent each, he would find no purchasers. The experiment was tried, and it turned out just as he said. No one would believe that the coins were genuine. It seemed too good to be true. An equally remarkable offer is that made by the proprietors of Dr. Pierce's Golden Medical Discovery, the sovereign cure for Consumption. Think of it! restoration to life and health for a mere song. There is not a case of Lung-scrofula—in other words Consumption—that will not yield to it, if it is taken in time. It is the greatest blood-purifier ever known, and is guaranteed to benefit or cure in all diseases of the throat and lungs, or money refunded. Only extraordinary curative properties could warrant or sustain its makers in selling it thus on trial.

A Sign of Better Times.

When everybody is hoping for the return of better times, each straw that shows the wind to be blowing from that quarter, is worthy of special notice. There is no barometer so reliable as the demand for goods. Nobody buys stock for fun or for appearances.

Our advertisers. The Charles E. Hires Company, of Philadelphia, transact business over a very wide field, dealing in every city, town, village and cross-roads in the country. They report that the sales of Hire's Root Beer so far this season are very much in excess of the same period last year. When it is remembered that their annual sales have before this reached the enormous total of 2,880,278 packages, which equals more than a gallon for every family in the country, it would seem at first thought that there is little room for further growth. Thirst for it, however, seems to universal, as this year's report shows a very large gain, indicating that ere long the person who does not drink Hire's Rootbeer will be somewhat of a curiosity.

No temperance beverage has ever anywhere nearly approached Hire's Rootbeer in popularity. Its wonderful success can be accounted for only on the ground that it is just what the manufacturers claim—an honest extract of nature's most healthful roots, which slakes thirst, improves health, and pleases every member of the family. Its remarkable sale certainly proves that millions enjoy Hire's Rootbeer.

Time to Disarm.

There are moments when it is criminal to dissemble with a view to putting anxiety to sleep. However much it may be desirable that the people should rest in security, there can be no safety in closing their eyes to a danger that is general, that is visible in every direction.

When the tramp of armed mobs responds to the tramp of armed possesss in half a dozen states, when the crack of the rifle lays miners low in Pennsylvania and the deadly echo reverberating from Colorado announces the life shot out of a dozen deputies, when Illinois is beset by contending forces within and threatened by a hostile army from a neighboring state, Coxeyism proper sinks into insignificance and the question arises. Shall the war become general?

The militia is under arms in two states already—Alabama and Illinois—and is vehemently called for to preserve the peace in Pennsylvania and Colorado—all over the labor question. The "unrest" of which so much has been heard of late is no longer at rest. It is on the march.

How peace is to be restored to this distracted country, for it cannot be said to be at peace now, is a question that may well occupy the mind of every patriot and philanthropist. One thing seems certain—industry cannot thrive when it must carry a weapon in one hand while trying to employ a pick with the other.

The resort to arms, and the disregard for law have been running rapidly of late in opposite directions. This sort of race must come to an end presently, but it may end with a shock that will shake the government. This other thing also is certain—anarchy cannot exist long in a civilized country. Its career is short. After it comes the military government. This is severe, but it seems to be the only sure method. The industrial interests of the country should give thought to the situation, and both sides—operators and operatives lay down their arms. It is the first move that can be made toward resuming the old relations of employer and employe for the benefit of both and the common welfare.

"My sister has been cured of scrofula by Hood's Sarsaparilla." Edith Bell, Hollidaysburg Pa.

Children Cry for Pitcher's Castoria.

For all kinds of headache and all other conditions resulting from constipation go by the book on Beecham's pills. Book free, pills 25c. At drugstores; or write to B F Allen Co, 365 Canal st, New York.

What is CASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhœa and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."
DR. G. C. OSGOOD, Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."
DR. J. F. KINCHELOE, Conway, Ark.

Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."
H. A. ARCHER, M. D., 111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."
UNITED HOSPITAL AND DISPENSARY, Boston, Mass.
ALLEN C. SMITH, Pres.,

The Centaur Company, 77 Murray Street, New York City.

"A HAND SAW IS A GOOD THING, BUT NOT TO SHAVE WITH."

SAPOLIO

IS THE PROPER THING FOR HOUSE-CLEANING.

RIOT AT FREELAND.

Serious Ending of the Trouble in a Polish Catholic Church.

Hazleton, Pa., May 27.—The trouble which has been brewing in the congregation of St. Casimir's Polish Catholic church at Freeland, broke out to-day in a bloody riot. For half an hour a reign of terror ensued, and considering the number of men engaged in it, the most peculiar feature of it is that many were not killed outright. The list of casualties is as follows: Victor Tomski, shot through the head; Peter Yasmoski, fatally shot through the abdomen; James Travimski, shot in the right leg; chief of police, head crushed with club; Officer Jones, nose and face smashed with stone; Constable Pinaby, head cut.

A dozen others were more or less seriously injured and fled to escape arrest. The congregation is composed of Lithuanians and Poles, but lately, led by Anthony Rudewick, an influential Polish merchant, an effort to have the priest, Father Massatos, removed has been going on. Yesterday the latter was notified that he would not be allowed to say mass today, and to protect himself he secured police protection. Under the escort of Officer Jones he approached the sacisty this morning, but was forced out by Poles. Upon making the second attempt the rioting started, several hundred men being present.

The officers could do nothing. The latter used their guns to protect themselves, while the belligerents used weapons of every conceivable nature. For thirty minutes the battle raged fiercely. Women and children ran screaming wildly from the scene. The shouts of the infuriated men added to the confusion and pandemonium reigned.

Under the escort of Burgess McLaughlin Father Massotas was conducted safely to his residence. During the fight, however, he viewed it from the balcony. A crowd of anxious Lithuanians surged about him, but amidst it all he remained cool and collected. He advised his followers not to return the fire and counselled peace. His influence had remarkable effect and the men left the place without participating in the hostilities.

When the firing at length ceased and order was again restored the scene resembled a battlefield. Wounded men were being carried and led by friends from the church yard, while the place itself was strewn with the weapons that had been used with terrible effect.

The mob was still in control and only four of them could be arrested and are now in custody. The burgess has drafted a number of deputies to assist in keeping the peace. Another outbreak may occur.

Prohibition a Failure.

Portland, Me., May 27.—In an interview today General Neal Dow acknowledged that, for the first time in his life, his prohibition liquor law was "not enforced at all in Portland." He said:

"The Sheriff and city authorities are commanded by the statutes to enforce the Maine law, and their official oath binds them to be faithful to that duty. The liquor law is not enforced in Portland because the leaders wish to obtain the vote and influence of the rum sellers."

THEY ARE DANDIES.

From Hinton R. Helper, the Celebrated Author, Traveler and Diplomat.

I have examined and re-examined the illustrations by sun-light by gas-light, and by candle-light, and have found them of surpassing merit in every view. Most opportunely, and fitly, too, among the varied and almost countless publications of this exceptionally epochical year of glorious old Christopher Columbus, your "*Glimpses of America*" will, I believe, deservedly take rank as the most preeminently meritorious and attractive volume of the immense series of printed documents directly and indirectly devoted—and most justly and commendably devoted—to the grandest possible celebration of the four hundredth anniversaay of the discovery of America. In brief, it gives bright promise of being a work that every intelligent and patriotic American citizen should purchase and preserve, and leaves as a priceless heirloom and legacy to his children.

If you have never seen "Glimpses of America" you should lose no time in calling at this office and examining Part 1. Or, better still, bring one coupon and ten cents in coin, and get the first part. You are sure to like it, and just as sure to then want the entire series.

JUNE FORECASTS.

The Kind of Weather We May Expect Next Month.

The following is from Rev. Irl R. Hicks' publication, Word and Works :

Fair weather will prevail in most parts of the continent at the opening of June. A storm period together with the new moon is central on the 3d. The conjunction of Jupiter and Neptune with each other, as well as the earth and moon, all being on a line with the sun, brings to bear a combination of rare occurrence, and which, no doubt, will affect in a perceptible way the general meteorology of our globe. A warm wave of much severity will pass over the country from about the 2d to 6th, the centre of dangerous storm disturbances being on the 3d, 4th and 5th. There are marked indications of earthquake perturbations on and about these same dates. A wave of cooler air from polar regions will flow in after the disturbances and dominate the weather for several days. On and touching the 9th and 10th it will grow very warm again, and a ser'es of rains and storms will set in with many prospects of continuing indefinitely. This is the entrance of the summer solstice, and showery, stormy weather, with unusual displays of lightning, may be expected until the solstice period is passed.

A storm period is central on the 14th, an equinox of Mercury is central on the 16th, and the full moon is on the 18th, all within a few days of the earth's turning point on the 21st. Therefore, many startling electrical storms will be natural from about the 14th, until after the reactionary disturbances due normally on the 20th and 21st. A peculiar and often surprising feature of these solstice storms, is the tendency of clouds to whirl into retrograde motion, storms appearing to arise from easterly directions, and drenching the earth with unlooked for downpours. This solstice period being well made within the Jupiter period many very heavy rains and local cloudbursts will be the most natural. About the 23rd to 25th much cooler weather may be expected, with a probable cessation of rains and heavy storms. The last June storm period is from the 26th to 30th, during which time a wave of intense warmth will pass over this country, as well as other parts of the globe, and many atmospheric and electrical disturbances may be expected about 26th to 29th. The Venus equinox, central on July 11th, promises rain for the most of that month ; but we believe the tendency will be to local cloudburst, with dryness covering many wide districts of the country. As a precautionary measure, we urge all our readers to make all possible provisions for returning in cisterns and ponds all the water possible, during the rains in June and the first half of July. In cases of late crops give your soil thorough and repeated plowing as soon as possible after rains. Never let it bake, especially in July.

An Interesting Case.

A case of interest to farmers and township officers was tried in the Blair county court at Hollidaysburg Tuesday. The plaintiff was William Weyant, the supervisor of Blair township, and the defendant was Thomas Patterson, a taxpayer in the same township. The suit was brought to recover two years' back road taxes amounting to $10. The defense was that Mr. Patterson had erected and maintained in good repair a public watering trough along the township road, having pure, clear water running into the same, and was easy of access, suitable for watering horses and cattle. The defendant claimed that, under the provisions of the act of April 28, 1876, he was entitled to the annual compensation of $5 for the use of the trough and the failure of the township to pay the sum for two years squared the claim for taxes. Supervisor Weyant insisted that the trough had been maintained without his sanction and authority, and the law made the matter wholly discretionary with the supervisors. Judge Bell also took this view of the case and directed a verdict in favor of the plaintiff. This is the first reported case under the watering trough law.

IT'S HIGH TIME

something was done, if your blood is impure. You can't mistake the symptoms. Blotches and pimples, or a feeling of languor and depression, are some of them. If you "let it go," you're an easy prey to all sorts of serious ailments.

Now, the best blood-purifier in the world is Dr. Pierce's Golden Medical Discovery. Take that, and it will certainly rid you of every blood-taint and disorder. It starts every organ into healthful action, assists all the bodily functions, and cleanses, builds up and invigorates the whole system. G. M. D. far surpasses nasty Cod liver oil and all its filthy compounds as a flesh-builder and strength-restorer.

For every disease caused by a torpid liver or impure blood, Dyspepsia, "Liver Complaint," the most stubborn Skin, Scalp, or Scrofulous affections — even Consumption, or Lung-scrofula, in its earlier stages—Dr. Pierce's Golden Medical Discovery is the only remedy so sure and effective that it can be *guaranteed*. If it doesn't benefit or cure, you have your money back.

Can anything else be "just as good" for you to buy?

Lock Haven's Condition.

The Lock Haven *Express*, of Wednesday says : Since the water has subsided it is found that the ravages of the flood have left Lock Haven in a worse condition than was at first supposed. The First ward has suffered as much in the destruction of property as in 1889 and the water played greater havoc in other portions of the city than was fully realized on Tuesday. It will require many thousand dollars to place Lock Haven where she was last Saturday. When it comes to clean out the cellars in the flooded sections of the city the refuse will be dumped into the streets and the city authorities will have to dispose of it or an epidemic of sickness will follow as was the case in 1889.

The city is not in a financial condition to carry on the work of cleaning and repairing the streets as it should be done without some assistance from abroad. The health of the community demands prompt action in clearing away the effects of the flood and the putting of the whole city in good sanitary condition. For this reason the Express suggests that the Mayor issue an appeal to the people of the State for money to aid in cleaning the city the funds to be dispensed by City Council for this purpose. A death-destroying fever at this time would be far worse than a flood. Such a calamity followed the flood five years ago and now is the time to takesteps to prevent a repetition of a similar epidemic.

From ten to fifteen thousand dollars is the amount needed to put the city in the proper sanitary condition.

How's This!

We offer One Hundred Dollars reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. Cheney & Co., Toledo O.

We the undersigned have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by their firm. WEST & TRUAX, Wholesale Druggists, Toledo, O.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75c. per bottle. Sold by all Druggists.

Everyday Definitions.

From the Young Lutheran.

The poet Tennyson could take a worthless piece of paper, and by writing a poem on it make it worth $65,000—that's genius.

Vanderbilt can write a few words on a sheet of paper and make it worth $5,000,000—that's capital.

The United States can take an ounce and a quarter of gold and stamp upon it an "eagle bird" and make it worth $20—that's money.

The mechanic can take material worth $5 and make it into a watch worth $100—that's skill.

The merchant can take an article worth 75 cents and sell it for one dollar—that's business.

A lady can purchase a very comfortable bonnet for $3.75 but she perfers one that costs $27—that's foolishness.

The ditch digger works ten hours a day and shovels three or four tons of earth for $2—that's labor.

The editor of this paper can write a check for $80,000,000 but it wouldn't be worth a dime—that's rough.

They are a Nuisance.

The recommendations of Dr. B. F. Lee, of the Pennsylvania Society for the Prevention of Tuberculosis, that the practice of collecting street dirt in heaps and allowing it to dry and blow about should be stopped, is in the line with the repeated efforts of those who, in the interest of the public health, have endeavored to secure constant and thorough cleaning of the streets. Dr. Lee's statement that these clouds of fine dust are active agents propagating disease reinforces the arguments against dirty streets upon the ground that they are a nuisance.

Kind Delegates.

Four young children were on St. Louis express west on Wednesday night bound for St. Louis. Both parents were dead and they were going to that city to live with an uncle. A number of delegates returning from the state convention were attracted by the children and soon learned their story. They had no money and several delegates soon took up a collection of five dollars and placed them in a Pullman car berth where they enjoyed a good rest. One of the children, a boy, was badly crippled and had to be carried.

Caught in the Act.

About half-past one o'clock on Wednesday morning two officers, from Marion twp., delivered a prisoner to the sheriff and on entering the prison discovered Thos. Meyers, one of Judge Furst's paroled burglars from Philipsburg, in the corridor of the jail in the act of sawing through the floor. Had he had one hour more he would have made good his escape. Just before locking up time on Tuesday night he had placed a dummey in his bed to deceive the deputy, and was successful and then secreted himself in the bathroom. He is now securly locked up and in irons.

THE DEVIL'S TOWER.

THE MOST REMARKABLE NATURAL FORMATION IN THE WORLD.

Graphic Description of Wyoming's Superlative Wonder.—The Mateo Tepee of Indian Superstition.—A Tower of Vitrified Rock 1700 feet high and only 326 feet at the base.

We copy the following vivid description of what may be termed the greatest wonder of the world, from Mr. Buel's famous "Glimpses of America:"

"Continuing our way southward to the junction of the Wyoming Division, in Fall River County, we turned north on that small branch whose temporary terminus is Merino, at which point a team was engaged to take us to what is truly one of the seven wonders of the world. In our trip of several thousand miles through the mountainous regions of the great West, we had seen and photographed many extraordinary and startling prodigies of nature, so that all sentiment of awe, surprise and admiration had been aroused, but we were now to be confronted by a miracle in stone that confounded and mingled all feelings of wonderment and fascination into stupefaction of bewildered senses.

"We had to travel about twenty-five miles across a fairly level stretch of country before reaching the Belle Fourche River, a main branch of the Cheyenne, on the west bank of which is located this marvelous monument of the ages, which for its astounding size and unaccountable formation is called the Devil's Tower. Among the Sioux Indians, who have always regarded it with superstitious dread, it is known as the Mateo's Tepee, signifying the Bear's Lodge, and was by them supposed to be the haunt of a were-animal, who possessed the power of becoming a bear or man at pleasure. The country within a radius of fifty miles is slightly broken by high table-lands, but there is nothing to indicate any special spasm of nature by which so great a freak might have been formed; yet out of this undulating expanse of landscape suddenly rises a stupendous obelisk of vitrified stone, to the amazing height of 800 feet. The base, which measures 326 feet at its longest diameter, is 400 feet above the river bed, which in turn is 500 feet above the sea level. Thus measured, the peak of this amazing tower is 1700 feet above the sea; no surprise therefore that it is visible for a distance of forty miles. But the wonder which such a colossal shaft naturally excites is immensely increased by the fact that the Devil's Tower is a composition of huge crystals of basalt, or volcanic rock, which lie in columns some three feet in diameter, and continue unbroken from the base to the peak, giving to it a fibrous appearance. The walls are almost vertical, with a slightly vertical slope, to give it a more graceful contour, and though there are occasional rifts in the sides, no human being however skillful as a spire-climber can ever accomplish its ascent.

"The inquiry is irresistible: ,What wondrous force created this petrified monster of the Wyoming table-lands?' One plausible answer may be built upon the theory that here, at one time, was the bed of the ocean, a supposition supported by such evidences as the finding of sea-shells and bones of extinct sea-creatures all about over the ground, and deeply imbedded in the earth throughout the section. When the waters receded, thus inequally, which might have existed as an island, was left as the product of volcanic action. But a yet more reasonable cause may be found in the supposition that along the Belle Fourche was the centre of intense volcanic energy some time during the very remote past, during which period the spot occupied by the tower was a volcano-vent out of which poured lava in such a slow and steady flow that it deposited in basaltic columnar chrystals at the apex. Thus gradually it grew in size and height, like many of the formations in Yellowstone Park, until the volcano had expended its force and left this vast monument as an everlasting evidence of its persistence through centuries of activity. But however it was formed, the Devil's Tower takes a place in the first list of the world's greatest natural wonders, and it deserves to be much better known than it is."

Parts I of "Glimpses of America" may be obtained this week at the office of the DAILY NEWS for one coupon and 10 cents per number. This is without exception one of the most unique, interesting and valuable works about America that it has ever been our pleasure to examine, and no one should miss the opportunity we now offer for securing it at cost of publication and distribution. See advertisement elsewhere.

A Philosopher's Opinion.

Voltaire said to a beautiful young lady with whom he was dining, "Your rivals are the perfection of art; you are the perfection of nature." This could not have been said if the young lady had been suffering from disease, and pain had left its signs on the features. Women who want to keep beautiful, and be the "perfection of nature," should use "Favorit Prescription" to assist Nature when needed, to correct irregularities, aid circulation and digestion, and thereby clear up the skin, renderiug it soft and beautiful. Dr. Pierce's Favorite Prescription is the only medicine for woman's peculiar ills, sold through druggists, and guaranted to give satisfaction in every case, or money refunded.

Death of Isaac Gingher.

The death of Mr. Isaac Gingher occurred at his home in Milesburg on Saturday last, the cause of his death being heart trouble. Deceased was aged about 75 years and leaves a wife, seven sons and three daughters to mourn his death. All the children are married, and singular as it may seem, not only all the sons, but all the sons-in-law as well, are republicans. The funeral occurred this morning at 10 o'clock, Rev. George E. Zehner, of this place, officiating.

A Visit to Valley Forge.

A correspondent of the Huntingdon News says : "It was my pleasure to make a visit to that far famed and historic village Valley Forge recently. The first thing which greets the eye of the visitor is General Washington's headquarters during the winter of 1777-8. The house is built of stone with a log kitchen in the rear and presents an attractive appearance. It was built in 1759 and owned by Isaac Potts. In the yard stands a flag pole one hundred feet high from the top of which floats the stars and stripes of our nation. In front of the house is a cannon that was captured from the British army. It weighs 2001 pounds, English. Upon entering the house the first thing that attracted our attention was the huge lock and key on the door. In the first room was a chair made in Sweden and brought to this country in the latter part of the sixteenth century; also several other chairs that Washington used. In another room stands an old musket made in 1620 and a sword captured from the British two days before the battle of Brandywine several old cannon balls, powder horns of cattle slaughtered here for food, an old clock 173 years old, which was used by the Potts family and which is still running, and in the window sill is a box that was used by Washington as a private drawer for his books.

Up stairs we first entered the General's sleeping room. On the walls hang thirty-nine portraits of him, made by different artists, from 1772-98. The adjoining room was used by his staff. Here was an old "warming pan" made in Sweden in 1646, and a fire place made of brick brought from England. Under the roof is another room and at the north side is a round window. Here a man was stationed to watch for any signal that might be given by the guards.

We then went to the old kitchen. In it is a well and an entrance to a cave from which the general could have made his escape in case of danger by a tunnel to the Schuykill river. The tunnel has been closed on account of the river flooding the cave. Leaving the house we followed the road along the creek until we came to the place where Potts found Washington, behind a bush kneeling in prayer, his cheeks wet with tears. History tells us that in relating the incident to his wife Potts added: "If there is any one to whom the Lord will listen, it is George Washington, and under such a commander, our independence is certain."

A little further up the creek a little spring bubbles out of the ground by the roadside, and, near it, stands a sign which reads: "Washington's Cold Spring, 1777-78." Fort Washington is about a mile from Valley Forge. Although little remain of the fort, you can see the entrenchments all around it.

We found three graves among the trees where several patriots slumber undisturbed. In returning to Valley Forge we passed over the road that Washington brought his army from Germantown to Fort Washington.

The Old Man Would Have His Joke.

Two boys, who owned a cattle farm out West,
Christened it "Focus," at their sire's request;
The old man thought it quite a good conceit,
For there the sun's rays meet—(the sons raise meat!)

The lads prospered, and they and their families enjoyed the very best of health. Dr. Pierce's Pleasant Pellets were always found in their medicine-chest—the only positive cure for bilious and sick headache, dizziness, constipation, indigestion, and all disorders of the bowels and stomach. Strictly vegetable, small, sugar-coated; only one required for a dose and their action is gentle and thorough. The best Liver Pill on earth.

Krauskopf Can't Enter Russia.

Washington, D. C., May 28.—Resolutions to be submitted by Representative Raynor to the house to-morrow will recite that the Russian government has denied admission to that country of Rabbi Krauskopf, an eminent Hebrew ecclesiactic of Philadelphia, and that this action by Russia is a breach of the treaty which gives American citizens right to enter, sojourn and travel in Russia the same as Russian citizens are admitted to this country. The resolution will direct the state department to make a demand on Russia for the full observance of the treaty and in case of a refusal will direct the severance of all treaty relations with Russia.

Dr. Krauskopf's intended voyage was for the purpose of visiting the nine provinces within which Russia restricts the Jews and to ameliorate their condition. He has visited President Cleveland, Secretary Gresham and other officials recently and it was arranged that Secretary Gresham should notify the Russian government of Dr. Krauskopf's proposed visit and ascertain if there was any objection. The response came quickly that the czar's officials could not permit the visit. Mr. Raynor now presents the question of the treaty right of an American to go to Russia without reference to his religion or former nationality.

HERE IS THE TICKET.

And It Is the One Which Will Win in November Next.

Harrisburg, May 23.—Had the 1,500 or more spectators at the republican state convention today been able to have voted, Congressman John B. Robinson would undoubtedly have been nominated for lieutenant governor. When Distric tAttorney I. Shaefler, of Delaware county, concluded his nominating speech in behalf of the president of the State League of Republican Clubs, the assemblage, with the exception of a large majority of the delegates, who were with Walter Lyon first, last and all the time, cheered Robinson to the echo. The applause was almost deafening and was continued for several minutes. It was by far the most enthusiastic reception tendered to any candidate during the day and Permanent Chairman Flood had considerable trouble in bringing the convention to order. "Bang," went his gavel upon the desk time and again, but each crack only served to make the gathering cheer the louder. It looked for awhile as though the president would be compelled to sit down and let the multitude have full sway, but be finally succeeded in restoring peace. As demonstrative as was the reception, it did not affect the Lyon strength a particle and the Allegheny state senator was nominated for second place on the ticket by a clean majority of 131 votes.

The Robinson people tested their strengh early in the day. When General Louis Wagner, of Philadelphia, was nominated for temporary chairman, Major Levi G. McCauley, of West Chester, was put forward for the office by the Robinson adherents. Wagner was chosen by a majority of 119, enough to satisfy the minority forces that the candidacy of any of their number would be "love's labor lost," and they therefore did not oppose the nomination of Rev. Dr. Theodore L. Flood for permanent chairman. The full ticket nominated is: Governor, General Daniel H. Hastings, of Bellefonte; lieutenant governor, Walter Lyon, of Pittsburg; auditor general, Amos H. Mylin, of Lancaster; secretary of internal affairs, James W. Latta, of Philadelphia; congressmen-at-large, Galusha A. Grow, of Susquehanna, and George F. Huff, of Westmoreland.

The convention ended in a love feast in which Lyon praised Robinson and Robinson eulogized Lyon. They both expressed undying fealty to the party and said their acrimonious campaign had been conducted "Largely on the surface." All of the candidates were seated in a row upon the stage with General Hastings upon the extreme right and Mr. Mylin on the extreme left, as a windup to the convention. All of them made speeches, which had the apparent effect of harmonizing the body, that as a delegate expressed it, "Discord is now an unknown quantity." The majorities predicted for the ticket by the nominees ran as high as 200,000. The diplomat of the convention was Major Alex McDowell, of Mercer, the present congressman-at-large. Seeing that his chances for re-nomination were hopeless he ascended the stage and withdrew from the race in a speech that witty, but expressive, while he clearly expressed himself as being disappointed. He did so in a manner that could not give offense, but which made many of the delegates wish there was a third congressman-at-large to be elected in order that he could be included among the successful ones. The Lycoming county delegates were cut off by the flood. The only representative from that district who put in an appearance was I. R. Fleming, and he did not arrive until after 5 o'clock, less than an hour before the final adjournment.

Lynching of a Negro.

Arlington, Ga., May 23.—On last Friday evening the 14-year-old daughter of Washington Smith, living near here, was assaulted by a negro. The negro fired a pistol over the girl's head several times and also plunged a knife into her side. Mr. Smith came up on horseback and the negro shot him several times and fled. Neighbors found the father and daughter insensible on the road and took them home. Mr. Smith died on Sunday morning and his daughter is not expected to live. Sheriff Wilkins captured the negro on Sunday afternoon and placed him under a strong guard in the Miller county jail. At 3 o'clock Monday morning a band of seventy-five men stormed the jail and took the negro to an oak tree in the public square. They hanged him to the tree.

Ten Years Without Talking.

Patterson, May 23.—After forty years of wedded life, Mrs. Martha Berdan, wife of Jacob G. Berdan, a wealthy resident of Spring Valley, Bergen county, is seeking a divorce, alleging gross cruelty. Each is over 60 years old. In her testimony before Vice Chancellor Pitney Tuesday, in this city, Mrs. Berdan said that her husband had confined her to the house like a hermit for the last ten years. During this time he had not spoken to her, she said, and, although living under the same roof, they cooked their meals separately, and he would not allow her to trespass on his side of the house. He had denied her money to buy clothes, and refused to let her friends or relatives hold communication with her. Counsel fees and alimony are demanded.

Breckenridge's Chances Going.

Louisville, May 23.—W. C. Owens has now a majority of the Ashland county congress committee and of the Fayette county committee. Colonel Breckinridge has had a majority heretofore, but when a chairman was elected, three weeks ago, an Owens' man was chosen by the state central committee. This left five for Breckinridge and four for Owens. Yesterday Secretary Dickson, of the state committee, went to Lexington and removed three members of the Fayette county committee including the chairman, J. V. Riley. All the vacancies were filled with Owens men. The chairman is a member of the congress committee, and this puts Mr. Owens in control in the district. The committeemen were removed because they are officeholders, which in party law makes them ineligible to serve on the committee.

About Ice Water.

"With the coming of the warm weather the horde of ice water fiends begins to make their appearance," said Archibald Wedling the other day. "I remember the time in Richmond where I live, that ice water was by no means the common thing that it is nowadays, and somehow the people seemed to get along without it. Now, a man who does not have water so cold that it makes his teeth ache is the exception. It is a matter of habit, and is not at all natural. Try an untamed savage on ice water and he will think you are trying to poison him. I saw a statement in a paper the other day that a Swede in Chicago grew very angry because a man tried to give ice water to his wee child. The younster would not have it. All of this leads me to the belief that the drinking of enormous quantities of ice water is a bad and, therefore, an unnatural habit. I think that before long many of the forms of acute diseases of the stomach to which we are more and more inclined in these times will be traced to the sudden chilling of the delicate linings of that important organ through sluicing it with water that is cold enough to make goose flesh if poured on the naked skin. What, then, must be the result if this fluid is suddenly thrown into the warm and unprotected surface of our inferiors?"—St. Louis Republic.

Beware of Fuit Skins.

With regard to the eating of fruit an important caution must be given: Fruit skins carry germs and are no more intended for human sustenance than potatoe skins, melon rinds, or pea pods. The bloom of the peach is a luxuriant growth of microbes that of the grape only less so; and when these skins are taken into the stomach they find most favorable conditions for their lively and rapid development, which causes the decay of the fruit before it is possible to digest it. This is the reason that so many persons think they cannot eat raw fruit. If they would in all cases discard the skin they could derive only good from the fruit itself. Nature provides the skin for the protection of the fruit from the multitude of germs which are ever ready to attack it, as is evidenced when the skin is bruised or broken in any way. The microbes at once begin their work of decay, and the fruit is unfit for food. Children are chief offenders in respect to this rule, and should be carefully watched and frequently cautioned. A daintiness as to the condition of fruit should also be cultivated, to prevent its being eaten unripe, or too old, on the verge of decay. Remember that it is sweet and ripe fruit, in prime condition only; that is recommended.—Demorest's Magazine for June.

TWENTY YEARS

OF ONE WOMAN'S LIFE

Spent With and For the Benefit of the Women of the World.

[SPECIAL TO OUR LADY READERS.]

One woman's work has told for good in thousands of homes throughout the world.

What a record of helpfulness!

What happiness and comfort that work has brought to thousands of despairing women; what pains banished and how smooth the way was made for weary sufferers, no pen or tongue can ever tell.

Lydia E. Pinkham gave the best of her life to the women of the world, that through her the suffering of her sex might be relieved.

Her Vegetable Compound saves women from all diseases of the womb and kidneys. It has stood for twenty years against all cavil, and won the first place in the hearts of women.

Look at the picture of this New York woman, once confined to her bed by chronic female weakness, now able to follow her husband in the Adirondacks on long gunning tramps.

Lydia E. Pinkham's Vegetable Compound made this change in her life.

Just hear this one talk. It does one's heart good.

"Female sufferers, hear me!

"I was discouraged, broken-hearted. I was so ill with female trouble I could not walk or stand, and had to be assisted to my feet when arising from a chair. My head whirled, and my back ached; but worst of all was that awful crowding-down feeling in my abdomen.

"A friend of mine told me of *Lydia E. Pinkham's* Vegetable Compound; her faith won mine, and now I am well. Oh! how can I return thanks to Mrs. Pinkham?

"Every woman troubled with uterus or womb troubles can be cured by Lydia E. Pinkham's Vegetable Compound, for it cured me, and will them."—Mrs. KERHAUGH, Juniata St., Nicetown, Pa. **Every druggist has it.**

A Pretty Wedding.

A very pretty, but quitet, little wedding took place on Thursday evening, at eight o'clock, at the residence of the Miss Weavers, on East Howard Street, which united, in marriage, Mr. Thomas Morgan, of Atlantic City, N. J., and Miss Belle Highlander, of Buffalo Run.

Dr. William Laurie, pastor of the Presbyterian Church, performed the ceremony, which was very beautiful and impressive.

The bride and groom immediately started on their journey with happy hearts, followed by the best wishes of their friends, to Atlantic City, which is to be their future home.

Every Seat is a Good One.

Some people are saying that the good seats—meaning those in the first ten rows—in the opera house are all reserved for the opera Paul Jones. This is a mistake. Every seat in the opera house is a good one, and from the middle of the house back will be the best place to see and hear this famous opera. The scenic effects will be seen to better advantage at a distance and, as the chorus is an unusually strong one, the music will also sound better. Therefore, don't think the good seats all taken but go and get as many as you desire anywhere in the house and you will enjoy the show as much, if not more, than those sitting so close the stage.

Children Cry for Pitcher's Castoria.

A YOUNG GIRL'S FORTUNE.

AN INTERESTING SKETCH.

Nothing appeals so strongly to a mother's affection as her daughter just budding into womanhood. Following is an instance: "Our daughter, Blanche, now 15 years of age, had been terribly afflicted with nervousness, and had lost the entire use of her right arm. She was in such a condition that we had to keep her from school and abandon her music lessons. In fact, we feared St. Vitus dance, and are positive but for an invaluable remedy she would have had that terrible affliction. We had employed physicians, but she received no benefit from them. The first of last August she weighed but 75 pounds, and although she has taken only three bottles of Nervine she now weighs 105 pounds; her nervousness and symptoms of St. Vitus dance are entirely gone, she attends school regularly, and studies with comfort and ease. She has recovered complete use of her arm, her appetite is splendid, and no money could procure for our daughter the health Dr. Miles' Nervine has brought her.

When my brother recommended the remedy I had no faith in patent medicines, and would not listen to him, but as a last resort he sent us a bottle, we began giving it to Blanche, and the effect was almost immediate."—Mrs. R. R. Bullock, Brighton, N. Y.

Dr. Miles' Restorative Nervine is sold by all druggists on a positive guarantee, or sent direct by the Dr. Miles Medical Co., Elkhart Ind., on receipt of price, $1 per bottle, six bottles for $5, express prepaid. It is positively free from opiates or dangerous drugs.

Every Man whose watch has been rung out of the bow (ring), by a pickpocket,

Every Man whose watch has been damaged by dropping out of the bow, and

Every Man of sense who merely compares the old pull-out bow and the new

Non-pull-out

will exclaim: "Ought to have been made long ago!"

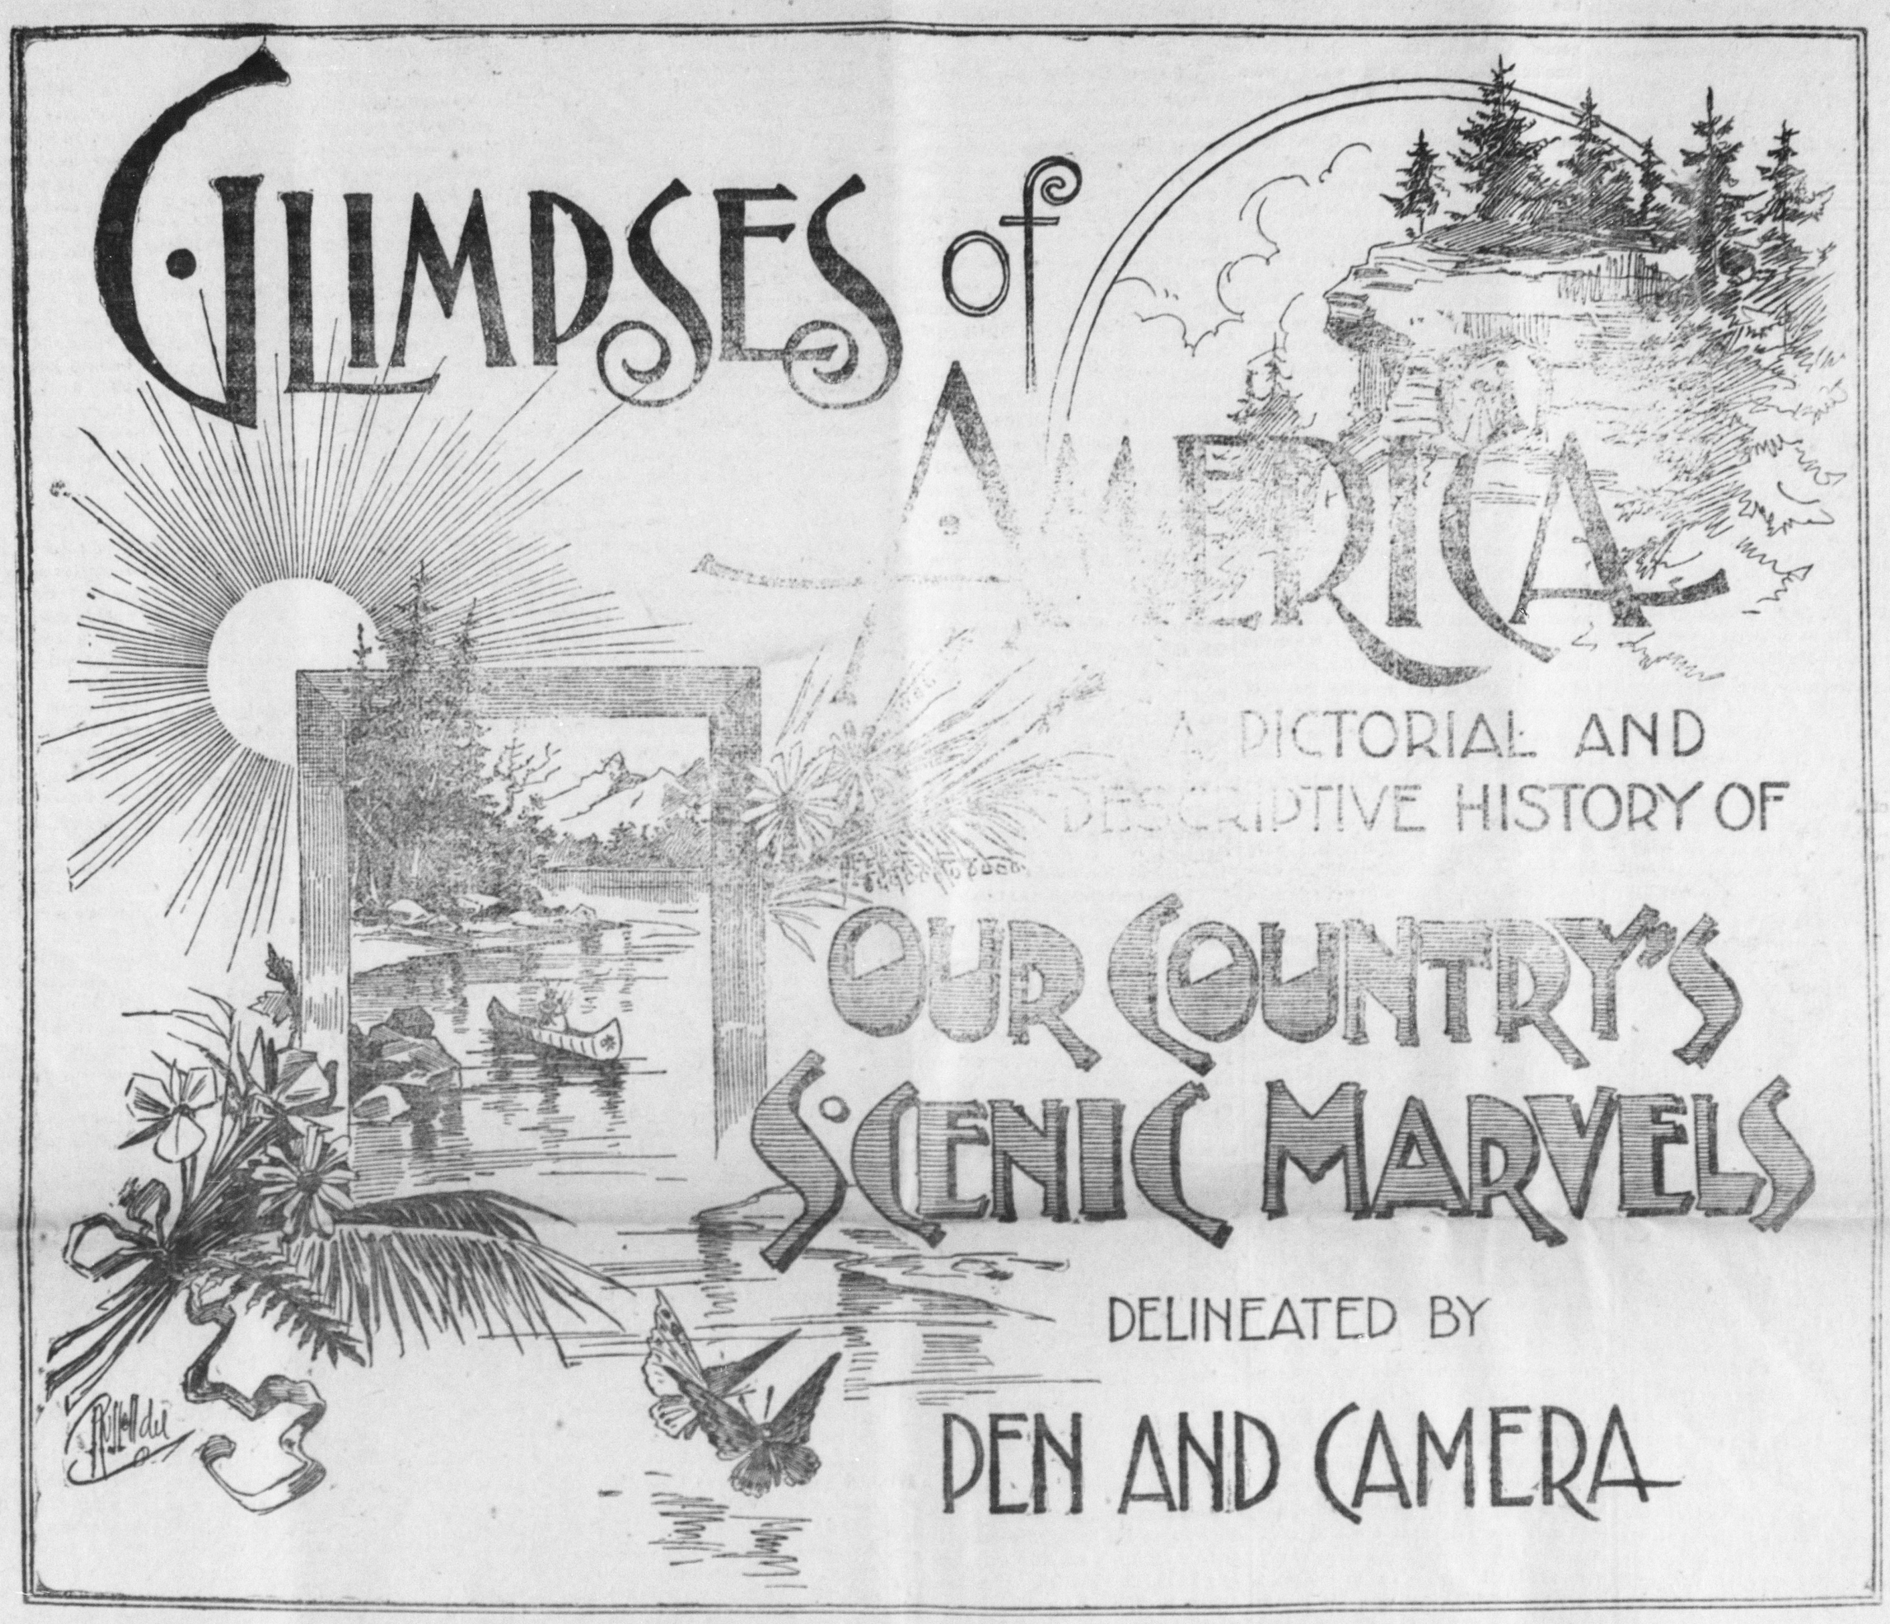
GOOD TIDINGS OF GREAT JOY



Our patrons will hail with delight the announcement that the DAILY NEWS has secured for its readers the most splendid pictorial work, illustrative of the wild, wonderful and charming scenery of our country, that was ever issued from the press of any land.

GLIMPSES OF AMERICA is a work of superlative merit, superior in its descriptive matter, and resplendent with 550 of the most beautiful half-tone pictures ever produced by the ingenious processess of experimentation and invention. But art and illustration have been surpassed by the discovery of a process whereby SCENEBY IS PHOTOGRAPHED IN NATURAL COLORS, and examples of this sublime discovery are now for the first time used in GLIMPSES OF AMERICA. They are called Cameragraphs, because the camera does the work of both printing and coloring; they are also designated as Heliotypes, because no other light than the sun is available for their production, and require an exposure of six hours.

GLIMPSES OF AMERICA has been pronounced, by a thousand distinguished persons, the most exquisite work that the press of the world has yet brought forth. But its beauty and worth is not restricted to the 550 superb illustrations that present all the marvelous scenery of our country with the vividness of actual observation, for its value is immensely increased by the remarkable graphic descriptions of the author, Mr. J. W. Buel, who, with a corps of three expert photographers, spent two years traveling in a special photographic car, visiting every section of the nation, collecting facts and making pictures of the scenic wonderlands of America. The cost of this trip was $50,000, as they traveled a distance of 25,000 miles by car, horseback, stage, boat and on foot, traversing every State and Territory that lies between the two oceans, and between Mexico and Alaska.

-GLIMPSES OF AMERICA-

GLIMSES OF AMERICA will contain a series of eight super-magnificent CAMERAGRAPHS, an invention of the publishers, who have spent a fortune in perfecting the process. Nothing in the way of fine engravings or color printing can be compared with them for their indescribable beauty and matchless splendor, that seem to hold

All the Glories of Nature in Their Embrace.

GLIMPSES OF AMERICA has no foot-note explanations of the illustrations, but contains an historical and descriptive narrative, diversified with stories, legends adventures, and thrilling episodes, that make the work more interesting than any novel, and

As Valuable as Any History,

because to Americans it tells a wonderful story, which they ought not only to hear but to know.

This Most Charming and Exquisite Pictographic Book

is published as a serial, comprising thirty-two parts, one of which will be issued each week and in every fourth number a bewilderingly beautiful full-page Cameragraph will appear. Each part will contain sixteen pages of pictures and reading matter, in about equal proportions, the pages being 11x13½ inches in size. The DAILY NEWS has secured the exclusive privilege of distributing **Glimpses of America** in Centre county and takes pleasure in announcing that the first number is now ready.

How to Obtain This Peerless Work!

Inferior serials are even now being sold at one dollar per number, but we are able to offer **Glimpses of America** to our readers upon the following conditions, viz.: Cut one coupon from the DAILY NEWS, and bring or send it to our office, together with ten cents, and we will either deliver any one part so ordered in person, or mail the same to any address without further expense.

LAFAYETTE COLLEGE,
EASTON, PENNA.
Seven Courses in Art, Philosophy and Science, Civil, Mining, Electrical Engineering and Chemistry.
ANNUAL COMMENCEMENT, JUNE 20TH.

THE REPUBLICAN.

Bellefonte Republican,

To Correspondents.—No communication published unless accompanied by the real name of the writer.

Corespondents should write upon but one side of the paper, and avoid the use of pale or fancy inks.

EDWARD T. TUTEN.

Local Department.

—During the past week Comrade Wm. Jones has had a new roof and various other improvements made to his house on East High street.

—We are sorry to record the serious illness of Miss Margaret Whiteman at her home on Water Street. Her friends are even fearful lest her illness prove fatal.

—Attendance at the various churches in Bellefonte Sunday morning and evening was very good. It was a most delightful day and everybody who could took advantage of it.

—The funeral of Mr. Thomas Jackson occurred on Sunday afternoon at four o'clock from his late home on South Allegheny street. Interment was made in the Union cemetery.

—A letter came through the Bellefonte postoffice Friday morning addressed to "The only and original William Jones." Of course, everybody in Bellefonte knows who would get it.

—Joseph Kunes, an aged and highly respected citizen of Eagleville, died on Friday of consumption. He was buried on Sunday, the services taking place at 10 o'clock in the forenoon.

—The State College Cadets, about two hundred in number, made a very fine appearance on the streets of Bellefonte Thursday evening. They came down to attend the Hastings reception.

—Lock Haven is to have Forepaugh's circus on Monday, June 18th. Wonder if Bellefonte is to be left entirely out in the cold this year? Thus far, there has been no intimation of any coming here.

—The work of putting the new steel furniture in the vault of the Register's and Recorder's office is about completed and those officials will likely feel so big they wont know how to contain themselves.

—The exercises connected with the twenty-first annual commencement of the Western Pennsylvania Classical and Scientific Institute, at Mt. Pleasant, Pa., will be held in the grand opera house, June 8—13, 1894.

—About fifty students of State College, composing the Theta Nu Epsilon fraternity, had a good time at their 7th annual banquet at the Fallon House, in Lock Haven Friday night last, Dr. W. H. Walker officiated as toastmaster.

—Sheriff John P. Condo wants to rent a house, it is said, because the county commissioners decline to continue furnishing coal for use at the jail. The Sheriff proposes to move out and allow the board to run the jail to suit themselves.

—Foster Runkle, of Spring Mills, Centre county, had both of his legs badly injured on a log job up the river, Tuesday night. He was brought to this city last night and taken to the home of his brother-in-law, A. G. Bloom.—Lock Haven *Express.*

—Mrs. James S. Brisbin, widow of the late General Brisbin, died at Minneapolis, Minn., last Saturday and was buried Tuesday. Mrs. Brisbin was a woman of rare good sense and excellent judgment and her death is peculiarly sad as it leaves the General's young children, by his first wife, alone and homeless.

—The other day a blacksnake was killed in the Buffalo Run valley which measured six feet two inches in length. Being somewhat bulky looking his snakeship was opened and it was then found that he had recently made a meal of seven little chickens. Verily Mr. Snake must have been a theological student in the snake family.

—On Monday night some person or persons threw the handsome urn off the top of the red granite monument in the marble yard of Andrew Mott, on High street. The noise occasioned by the fall of the urn awakened Mrs. Chambers who got up and looked out of the window. She saw three men; one of whom was tall and wore a long overcoat, but she was not able to recognize any of the parties. The time was about 2 o'clock a. m. Naturally Mr. Mott feels very angry, as the urn was worth about $35, and if he ever finds out who did the mischief, it will prove pretty dear sport for them.

HE WAS WELCOMED.

How Gen. Hastings Was Received on His Return from Harrisburg Thursday Evening.

It goes without saying that General Hastings and his friends could not feel other than gratified with the work of the Republican State Convention on Wednesday but how much more gratifying it must have been to all who witnessed the royal welcome home and reception tendered the General on his arrival here Thursday evening.

In the evening a train of nine cars brought the State College Cadets, about 250 in number, and a goodly number of other persons to town. These with the Bellefone and Pleasant Gap bands and several thousand Bellefonte citizens kept things quite lively on thes treets until the arrival of the train, which came in promptly on time—8.45 o'clock. The General was accompanied home by Col. B. F. Gilkeson, Chairman of the State Central Republican committee; Col. J. H. Lambert, of the Philadelphia *Press*; Gen. Beaver, Col. Coburn, John P. Harris, with a large number of other friends and the Philipsburg glee club. The arrival of the train was the signal of a great demonstration of cheering, music and fireworks. Many flags were displayed all along the route up High and out Allegheny streets to the General's home, and the trip out was made through a veritable "blaze of glory"—the resplendent and profuse display of fireworks.

The crowd that thronged the spacious lawn surrounding the general's home must have numbered several thousand, and it was full fifteen minutes before the demonstrations could be quieted sufficiently to enable anyone to be heard. When the time come W. F. Reeder, Esq., introduced Gen. Beaver as the presiding genius of the evening, and he announced the purpose of the meeting and for the crowd present formally welcomed the general home and congratulated him on his nomination.

General Hastings responded briefly and in his remarks said: My friends, I have received some compliments in my lifetime but never any such as this—the welcome home of my neighbors from Harrisburg, and I thank you one and all with all the warmth of a very thankful heart. Other speakers who followed general Hastings were Col. Lambert, of Philadelphia; Hon. A. O. Furst, Col. J. L. Spangler, Col. B. F. Gilkeson, of Bucks County; D. F. Fortney, Esq., Hon. John G. Love, Ex-Gov. A. G. Curtin, Col. James P. Coburn and Dr. George W. Atherton. Each in turn spoke warm words of welcome and expressed their gratification at the general's success, wishing him a continuance of the same in the future.

The reception was entirely devoid of all political significance; it was the simple, full and heartfelt welcoming of neighbors and friends extended to one of their number. It is such welcomes as these, demonstrations of like kind which makes the Bellefonte man, without regard to political preference, so popular at home and so renowned and esteemed abroad.

It was fully half-past ten o'clock when the speech making ceased and for almost an hour afterwards the demonstration was kept up by the singing of the glee club, music of the bands and the display of fire works, so that it was well on to midnight before General Hastings and his guests were left alone and able to sit down and enjoy the first meal they had after leaving Harrisburg.

U. V. L. Memorial Service.

Almost every member of Encampment, No. 59, Union Veteran Legion of Centre county, was present in Gregg Post rooms, Harris' block, Friday evening, to participate in the memorial services held in honor of all comrades who had died during the past year. In addition to the members of the Legion, there were many other soldiers, as well as others present and the whole made up a good-sized audience.

The deceased comrades in whose honor the services were held were John Odenkirk, of Old Fort, a member of the 148th Regt. Pa. Val.; Cyrus Goss, a member of the 14th Pa. Cav., who died on February 22nd in Altoona; and Jeremiah A. Blair, of Fleming, a member of the 7th Pa. Cav. In honor of these deceased comrades three draped chairs were arranged in a semi-circle in front of the Commander's desk.

Music for the occasion was furnished by a choir composed of Messrs. Lukenbach, Shuey, Whippo and Smith, with Prof. Ammerman at the organ. After the usual opening exercises Prof. John Hamilton, of State College, was introduced and proceeded to deliver the memorial address. Mr. Hamilton's speech was a model of its kind and deserves a more extended notice than we have space to give it. The services throughout were very interesting.

—On Wednesday evening, May 19th, a young man of Fillmore arrayed himself in his best Sunday-go to-meeting bib and tucker and hid himself away to the home of his sweetheart, which, by the way, was on the opposite side of Buffalo Run. Never dreaming of a flood, the young man remained pretty late, or rather quite early Sunday morning, and when he departed for home and came to the creek, he could not cross, the waters had risen so high. In his distress he aroused a gentleman friend and took refuge with him, being compelled to remain until Sunday evening before he could get passage across the raging waters. Next time he goes the young man should take a boat along.

MEMORIAL SERMON.

Preached by Rev. Noll on Sunday Morning.

Sunday morning the Reformed church was filled to overflowing with members of Gregg Post, No. 95, G. A. R., in dress uniform, and a large congregation of the general public to listen to the annual memorial sermon preached by Rev. Miles O. Noll, in honor of deceased soldiers. The choir for the occasion was especially large and strong and the music rendered all very appropriate. Frank Keller, Esq., and Miss Lulu Harper sang very pretty solos.

Rev. Noll's sermon was from the text found in Hebrews, as follows: "For without the shedding of blood there is no remission." The sermon was a very able one throughout and abounded in historical facts and statistics. The reverend gentleman went back and reviewed the period of time before the cruel war. Showing that, although slavery abounded in the southern states, it was against the laws of both God and man. The laws of God created and ordained all manner of mankind to be free and equal. The constitution of the United States declared freedom and independence to all alike, and yet this great and accursed sin of slavery was allowed to abide and flourish in these states, even under the very doors of the seat of government. To wipe out this sin, it became necessary to cause the shedding of much blood, but the victory was great and the remission complete. Rev. Noll then came on down to the present time and reviewed the situation between capital and labor as it now exists. He deplored the present circumstances, fearing that it might again be necessary to cause the shedding of much blood for the remission of the sin of oppression of capital upon labor.

The sermon was greatly enjoyed by all present. The exercises closed with the singing of that good old national hymn, "America."

Council in Special Session.

A special meeting of borough council was held Monday evening to take action on the report of the Street committee relative to changing the grade on Spring and Lamb streets. Every member was present with the exception of Henry Brockerhoff. The Street committee presented the borough engineer's profile of Spring and Lamb streets where they cross each other and recommended that the grade of Spring street be raised three feet above its present level in the centre of Lamb street, and that Lamb street be raised one foot at the Spring creek bridge and then be graded to conform with the new grade on Spring street. After considerable discussion the recommendation was adopted.

On motion of Mr. Hillibish the Street committee was authorized to at once replace the foot bridge across Spring creek, at the foot of Curtin street, which was washed away by the recent flood. No other business being before the body council adjourned.

State Editorial Exursion.

The executive committee of the Pennsylvania State Editorial Association have decided upon the summer excursion for July 2d to 7th. The trip will be made to Asbury Park, N. J.; and as the annual meeting of the National Editorial Association occurs at the same time and place this will no doubt be the most important and entertaining summer outing of our State Association for many years. It is proposed to have all who participate in this excursion rendezous at Philadelphia on Monday night, July 2d, and leave Broad street station in a body by special train for Asbury Park on Tuesday morning July 3d.

Lock Haven Beaten.

Saturday the famous Lock Haven base ball team went to State College and engaged in a combat with the first team of that place. In the last half of the ninth inning, with the score standing 7 to 4 in favor of the College, a kick was raised by the visitors over a decision of umpire McLean and manager McNerney took his men off the field. Of course it was State's game anyway so that this action did not change the result materially.

From Gen. S. K. Hopper, G. P. A., Denver and Rio Grande R. R.

I have the pleasure to acknwledge receipt of your publication, "*Glimpses of America*," and I have spent most of the afternoon looking it over, and must say that it far exceeds my expectation, and is without doubt, the best one that has yet appeared illustrating American scenery.

Surveyor Meek's Appointment.

Surveyor of the Port P. Gray Meek last night announced the appointment of ex-State Senator Harry J. McAteer, of Huntingdon county, as first deputy surveyor, thus completing the list of appointments under him, and giving to the surveyor's office in Philadelphia a full Democratic outfit of officials and assistants.

An Italian Arrested.

Says the Lock Haven *Democrat* of Saturday:—An Italian was arrested at the Krom hotel yesterday by a Pennsylvania railroad detective of Altoona and Policeman Garis of Bellefonte, for receiving brass stolen from the P. R. R. at Altoona. The accused was taken to Hollidaysburg for trial.

AT THE GYMNASIUM.

A Good Entertainment Given by the Y. M. C. A. Athletics.

When Secretary Cota, of the Young Men's Christian Association, conceived the idea of giving an athtetic exhibition in the gymnasium he struck the popular chord, as the large crowd present on Wednesday evening fully demonstrated. Many ladies were among the large number present and they enjoyed the athletic performance fully as much as did the gentlemen. The class of young men who participated include the following:

Messrs. Charles S. Bosner, Samuel Taylar, Newton Irvin, John Bell, Homer Barnes, Harris Heylmun, J. D. Underwood, Wm. McCalmont, Paul Sheffer, Rufus Strohm, T. Greninger and Allie Maitland, under the direction and leadership of Secretary Cota, himself. Miss Bessie Dorworth presided at the piano and furnished music for the drills, marches, etc.

It was almost 9 o'clock when the performance began with a drill and from that on for an hour and a half the class kept the several hundreds present very well entertained with the various acts of drilling, jumping, hand walking, somersaults, etc. At the conclusion of the performance, or during the same for all those desiring it, ice cream and cake were served to all in the Association parlors. The tables were handsomely arranged and decorated and some of Bellefonte's fairest young ladies passed around the cream. Taken all in all it was a most successful evening, the Association realizing, clear of all expenses about twenty dollars.

And while we are on the subject of the Association we cannot refrain from complimenting Secretary Cota on the good work he is doing among the young men of Bellefonte. The Association has been more than fortunate in securing his services. He is a man who is not afraid to work and it seems to be his greatest ambition to be doing something all the time to keep the needs and the work of the association before the people; and he generally manages to do the right thing at the right time. Being no fanatic, he is universally popular with the yonng men and boys and seems to be possessed of a magnetism which never repels, but always wins friends and holds them.

As to the Association, it's in an excellent condition. It has never been so well fixed up or equipped as it is at present, and it certainly deserves all the encouragement and support of every Bellefonte man and woman.

Death of Mrs. Jonathan Riggleman.

Death entered the home of Mr. Jonathan Riggleman, of Martha Furnace, on Wednesday, May 23rd, carrying away the wife and mother, Mrs. Mehala Riggleman.

The deceased was 53 years, 5 months and 10 days old. She leaves a husband, two sons and two daughters to mourn her departure. Seventeen years ago she had a severe attack of inflammatory rheumatism from which she never fully recovered. She had not been able to walk since 1877. Although a constant sufferer, she was ever patient and gentle. Eight years ago she cast her "burdens upon the Lord," since then He has sustained her. Mr. Riggleman's work kept him much from home.

The youngest son Peter, in early years assumed the charge of his mother. His care and devotion greatly alleviated her sufferings. Since early spring she has been more frail than usual. About two weeks ago she contracted a slight cold, her body already racked with pain and suffering, she grew rapidly worse. Her family and neighbors kindly nursed her during her last illness and hoped for her recovery but the Master said "It is enough, come up higher," and on Wednesday night she called her family around her, then like a tired child, she sank to rest, having come up through great tribulations and had her robes "washed in the blood of the Lamb." We believe she has gone to that "Home not made with hands, eternal in the Heavens."

The family have our sincere sympathy in this sad hour of bereavement, but may they so live to meet her, in Paradise.

O, my beloved one,
How I did grieve and lament
When "through the grave and gate of death."
Out of this world you went
And still from sun to sun,
From solemn eve to eve,
How often I lament anon,
And for your presence grieve.

How often little things
Will your clear ways reveal,
And bring a mist before my eyes,
A shadow over me.
And though I sometimes think
You may be very near,
It does not still the inward cry.
"If you were only *here* !"

Yet there are other times—
Dark in themselves, 'tis true;
When I am filled with thankfulness
Beloved one, for you.
When, tho' sharp trial comes,
When cruel things befall,
Hardships and disappointed hopes—
You have escaped from all.

You have escaped from all,
I say it o'er and o'er,
With thankfulness in your behalf.
Impossible of yore,
Sin is for you o'er past;
The needless fret, the strife,
The failure and the weariness
That crush this mortal life.

A flood of joy flows in
That drowns the sense of grief.
As the fair vision of your peace
Comes to my glad relief.
I cease to wish you here!
Lead her, dear Lord, I say,
From blessedness to blessedness
On her immortal way.

A Faiend.

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

Royal Baking Powder

ABSOLUTELY PURE

PERSONAL PENCLINGS.

Mrs. Charles Eckenroth, of East Howard street, is seriously ill.

General James A Beaver was a traveler on the early morning train west to-day.

Mr. and Mrs. Harry Shaeffer, of Philadelphia, arrived in Bellefonte, on Monday afternoon on their wedding tour and are stopping at the residence of Mr. and Mrs. Robert Bauslough, on Valentine street.

Mrs. W. E. Burchfield, of Philipsburg, is visiting relatives in this place.

Mr. John A. Daley, of Romola, greeted his many friends in Bellefonte today.

Mr. George Wagner, of Fillmore, is rejoicing over the arrival of a new son at his home.

Miss Minnie Reeser, of Hunter's Park, is spending a few days with friends at State College.

Mrs. Sarah Mechtley, of Fillmore, is visiting friends at Potter's Mills and vicinity.

George T. Bush, P. B. Crider and architect Robert Cole were three Bellefonte citizens who spent Saturday in Lock Haven.

Miss Leona T. Maitland departed on Friday afternoon for Williamsport to visit friends. She likely wants to get another glimpse of how Williamsport looks all covered with mud and debris.

Clement Dale, Esq., departed Friday morning for Philadelphia. He will enjoy the sights in the Quaker City until Wednesday next when he will go to Gettysburg to attend a meeting of the Board of Trustees of the Theological Seminary at that place.

Frank Keller, Esq., of Bramwell, W. Va., is visiting his brother, Col. D. S. Keller, and other friends in this place and county. Frank is one of the law firm of Rucher, Keller and Hamill. Rucher and Hamill are located at Welch, and Keller is doing business at Bramwell. He is the same old Frank of "ye olden time."

Mrs. Woods, wife of Dr. George H. Woods, of Pine Grove Mills, was in Bellefonte Tuesday visiting her sister, Mrs. W. H. Musser, on Howard street. She returned home that evening at 5.15 o'clock over the Bellefonte Central, and was accompanied by Mrs. Musser, who will make a brief visit in Pine Grove. While she is away Mr. Musser will keep bachelor's hall with A. A. Dale, Esq.,

Rev. G. W. Leisher, of Boalsburg Lutheran church, passed through Bellefonte on Tuesday on his way to Gettysburg to to attend a meeting of the Board of Trustees of the Theological Seminary in that place, of which body he is a member. He was accompanied by Rev. Dingman, formerly of Mill Creek, Huntingdon county. Clement Dale, Esq., of this place, is also in Gettysburg for the same purpose. He was accompanied by his wife and child.

The Sewing School.

The Bellefonte sewing school, which met in the W. C. T. U. rooms every Saturday afternoon since November 1st, has just closed another successful season. There have been eighty children on the roll. Those who had faithful teachers were faithful in attendance, but where the teacher was irregular they soon lost their interest. They begin to learn on doll's clothes. After making a doll's outfit, we give them an apron to make for themselves, and other garments. We gave out 46 gingham aprons. They also work on a piece of muslin, on which they are taught the different stitches, seams, tucking, patching, button holes, etc. Lizzie Lambert received 1st prize for the neatest work on her muslin, and Viola Robb 2nd prize.

Centre County's Sheriff Notified.

On Monday Sheriff John P. Condo received two letters from coal operators at Powelton, one from S. S. Blair and the other the Robert Hare Powell estate, asking how he stood in the matter of the present difficulty between the operators and miners; and also advising him to be in readiness to quell a disturbance, as it now looked as if there might be serious trouble most any time. Sheriff Condo is off on a business trip to Snow Shoe today and while in that region will probably investigate the condition of affairs as they exist in that section.

A Sensible Suggestion.

A lady reader of The News writes as follows: "Will you please put a request in your paper asking the ladies and young girls not to wear large hats to the opera Friday night. But, if any are obliged to wear them, that they kindly remove them after being seated. By so doing they would confer the greatest favor on those who are obliged to take back seats. I know hundreds would sign this request, if they were asked." No comment on the above is necessary, only to say it is to be hoped the request will be granted.

TO EMPLOYERS AND OTHERS.

What the Bellefonte Y. M. C. A. is Doing and What It Needs.

Where and how and under what influences will that young man in your employ spend his leisure time? Upon the answer to that question depends his future value to family, employer, community. At work he is all right. The way he spends his idle time decides his future. Your store or factory door swings to behind him, and he passes out into the lighted street to spend his evenings—how?—where?

It is a sad and deplorable fact that many business men feel they have no responsibility for the young men in their employ, after working hours are over. Who then are to look after and protect them, from the many snares that are laid to entrap them? and especially at a time when the "devil" is putting in his best work. It is known to all that in this town there is a Young Men's Christian Association open every day and evening where young men seeking society and recreation can find what is manly and helpful. During the past six months a reasonably good work has been done, in face of the fact that it has been hampered with lack of support on the part of those who are able to give; and from whom the association has a right to expect financial help. It has been demonstrated that the association can do good work under proper management and support, and the time is at hand when the business men of Bellefonte must come forward and show by their support, financially, that the Young Men's Christian Association is a permanent institution.

The man who is not a believer in Christianity will not invest his money where there are no churches, schools and other christian and benevolent institutions. Remove all these christian and educational forces from any community and the population would diminish rather than increase. The association is no less a factor for good in the community than are the schools and churches. Any citizen who loves his city and has an interest in its prosperity, growth and development, whatever may be his religious opinions and convictions, can well afford to contribute toward the maintenance of the association. It is an influence thrown around young men for good; welcoming them to seek rest and recreation here rather than in the saloon. The young men who are trained in the association make better citizens, better clerks, and better mechanics. The railroad corporations appreciate this fact, and their directors are appropriating annually large sums of money for the maintenance of these associations because of the influence it has upon the men in their employ; they make more true engineers, better firemen, better brakemen, better conductors—they give better service in every respect. The railroads do this from a business point of view.

—People who have engaged seats for "Paul Jones" should lift their tickets at once. Many engage seats and never turn up for the tickets and cut others out. Get your tickets as soon as possible.

ANNOUNCEMENTS.

President Judge

In accordance with the customs and rules of the Republican party, I hereby announce myself as a candidate for President Judge of this Judicial District, subject to the action of the Republicans of the district at their nominating conventions.

John G. Love.

In accordance with the rules and customs of the Republican party we are requested to announce as a candidate for President Judge in this Judicial district the name of Hon. A. O. Furst, subject to the action of the Republicans of the district at their nominating conventions.

For Congress.

We are authorized to announce the name of William C. Arnold, Esq., as a candidate for Congress in the Twenty-eighth district of Pennsylvania, subject to the rules governing the Republican party. 23-tf
